Dying in America Institute of Medicine, Committee on Approaching Death: Addressing Key End-of-Life Issues, 2015-03-19 For patients and their loved ones no care decisions are more profound than those made near the end of life Unfortunately the experience of dying in the United States is often characterized by fragmented care inadequate treatment of distressing symptoms frequent transitions among care settings and enormous care responsibilities for families According to this report the current health care system of rendering more intensive services than are necessary and desired by patients and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families Dying in America is a study of the current state of health care for persons of all ages who are nearing the end of life Death is not a strictly medical event Ideally health care for those nearing the end of life harmonizes with social psychological and spiritual support All people with advanced illnesses who may be approaching the end of life are entitled to access to high quality compassionate evidence based care consistent with their wishes Dying in America evaluates strategies to integrate care into a person and family centered team based framework and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families The findings and recommendations of this report will address the needs of patients and their families and assist policy makers clinicians and their educational and credentialing bodies leaders of health care delivery and financing organizations researchers public and private funders religious and community leaders advocates of better care journalists and the public to provide the best care possible for people nearing the end of life **Annals of the Carnegie Museum**, 2013 *The Uncanny Valley Hypothesis and Beyond* Marcus Cheetham, 2018-05-02 A field of theory and research is evolving around the question highlighted in the Uncanny Valley Hypothesis How does high realism in anthropomorphic design influence human experience and behaviour The Uncanny Valley Hypothesis posits that a very humanlike character or object e g robot prosthetic limb doll can evoke a negative affective i e uncanny state Recent advances in robotic and computer graphic technologies in simulating aspects of human appearance behaviour and interaction have been accompanied therefore by theorising and research on the meaning and relevance of the Uncanny Valley Hypothesis for anthropomorphic design Current understanding of the uncanny idea is still fragmentary and further original research is needed However the emerging picture indicates that the relationship between humanlike realism and subjective experience and behaviour may not be as straightforward as the Uncanny Valley Hypothesis suggests This Research Topic brings together researchers from traditionally separate domains including robotics computer graphics cognitive science psychology and neuroscience to provide a snapshot of current work in this field A diversity of issues and questions are addressed in contributions that include original research review theory and opinion papers Management Consultancy and the British State Antonio E. Weiss, 2018-10-26 This book traces the emergence and development of the relationship between management consultancies and the British state It seeks to answer three questions

why were management consultants brought into the machinery of the state how has state power been impacted by bringing profit seeking actors into the machinery of the state and how has the nature of management consultancy changed over time The book demonstrates the role consultants played in major developments in the postwar period Specific case studies interrogate how consultancies influenced the policy fields of health service reform and social security benefits This book will redefine debates amongst business historians and historians of the postwar British state about the nature of management consultancy and public sector reform British Books,1919 On Creation, Science, Disenchantment and the Contours of Being and Knowing Matthew W. Knotts,2019-09-19 For Augustine the world is replete with meaning it represents not merely a collection of facts to be catalogued but a repository of truths to be discovered and discerned a view which contrasts with the one we have inherited as a result of the thought of figures such as Descartes Newton and Kant What difference would it make to see the world as created Matthew W Knotts explores this question in close conversation with Augustine according to whom our nature as God s creatures determines fundamental aspects of our identity and our knowledge In a postmodern context informed by a renewed appreciation of the limitations of human nature and reason Augustine once again emerges as an insightful and compelling source for further reflection **The Publisher** ,1919 **The Publishers' Circular and Booksellers' Record** ,1919 **God, Freud and Religion** Dianna T. Kenny,2015-03-05 Choice Essential Read Did God create man or did man create God In this book Dianna Kenny examines religious belief through a variety of perspectives psychoanalytic cognitive neuropsychological sociological historical and psychiatric to provide a coherent account of why people might believe in God She argues that psychoanalytic theory provides a fertile and creative approach to the study of religion that attempts to integrate religious belief with our innate human nature and developmental histories that have unfolded in the context of our socialization and cultural experiences Freud argued that religion is so compelling because it solves the problems of our existence It explains the origin of the universe offers solace and protection from evil and provides a blueprint about how we should live our lives with just rewards for the righteous and due punishments for sinners and transgressors Science on the other hand offers no such explanations about the universe or the meaning of our lives and no comfort for the unanswered longings of the human race Is religion a form of wish fulfilment a collective delusion to which we cling as we try to fathom our place and purpose in the drama of cosmology Can there be morality without faith Are science and religion radically incompatible What are the roots of fundamentalism and terror theology These are some of the questions addressed in *God Freud and Religion* a book that will be of interest to psychoanalysts psychologists and psychotherapists students of psychology psychoanalysis philosophy and theology and all those with an interest in religion and human behaviour Dianna Kenny is Professor of Psychology at the University of Sydney Australia She is the author of over 200 publications including six books **The Puritan Ideology of Mobility** Scott McDermott,2022-02 The Puritan Ideology of Mobility Corporatism the Politics of Place and the Founding of New England Towns before 1650 examines the ideology that

English Puritans developed to justify migration their migration from England to New England migrations from one town to another within New England and often their repatriation to the mother country Puritan leaders believed firmly that nations colonies and towns were all bodies politic that is living and organic social bodies However if a social body became distempered because of scarce resources or political or religious discord it became necessary to create a new social body from the old in order to restore balance and harmony The new social body was articulated through the social ritual of land distribution according to Aristotelian distributive justice The book will trace this process at work in the founding of Ipswich and its satellite town in Massachusetts

Climate Change and Cities Cynthia Rosenzweig, William D. Solecki, Patricia Romero-Lankao, Shagun Mehrotra, Shobhakar Dhakal, Somayya Ali Ibrahim, 2018-03-29 The Urban Climate Change Research Network's Second Assessment Report on Climate Change in Cities ARC3 2 is the second in a series of global science based reports to examine climate risk adaptation and mitigation efforts in cities The book explicitly seeks to explore the implications of changing climatic conditions on critical urban physical and social infrastructure sectors and intersectoral concerns The primary purpose of ARC3 2 is to inform the development and implementation of effective urban climate change policies leveraging ongoing and planned investments for populations in cities of developing emerging and developed countries This volume like its predecessor will be invaluable for a range of audiences involved with climate change and cities mayors city officials and policymakers urban planners policymakers charged with developing climate change mitigation and adaptation programs and a broad spectrum of researchers and advanced students in the environmental sciences

Issues in Aging Mark Novak, 2018-02-02 Issues in Aging combines social psychological biological and philosophical perspectives to present a multifaceted picture of aging Novak illustrates both the problems and the opportunities that accompany older age This text helps students understand the tremendous variability in aging and introduces them to careers working with older adults This new edition reflects the continued changes in the way we age The fourth edition has been updated to include emerging issues in aging These include the prevalence of HIV AIDs in later life current research on mental potential in old age the creation of age friendly cities and new options for end of life care Each chapter begins with a set of learning objectives to guide students in their reading and concludes with a list of main points questions for discussion or study suggested readings and relevant web sites to consult Each chapter also includes up to date charts and graphs as well as key terms to help students understand the issues presented Break out boxes reveal the human side of aging through the stories of individuals in real life and in the media

Teaching to Change the World Jeannie Oakes, Martin Lipton, Lauren Anderson, Jamy Stillman, 2018-01-29 Teaching to Change the World is an up to the moment engaging social justice oriented introduction to education and teaching and the challenges and opportunities they present Both foundational and practical the chapters are organized around conventional topics but in a way that consistently integrates a coherent story that explains why schools are as they are Taking the position that a hopeful democratic future depends on ensuring that all students learn

the text pays particular attention to inequalities associated with race social class language gender and other social categories and explores teachers role in addressing them This thoroughly revised fifth edition remains a vital introduction to the profession for a new generation of teachers who seek to become purposeful knowledgeable practitioners in our ever changing educational landscape for those teachers who see the potential for education to change the world Features and Updates of the New Edition Fully updated Chapter 1 The U S Schooling Dilemma reflects our current state of education after the 2016 U S presidential election First person observations from teachers including first year teachers continue to offer vivid authentic pictures of what teaching to change the world means and involves Additional coverage of the ongoing effects of Common Core highlights the heated public discourse around teaching and teachers and charter schools Attention to diversity and inclusion is treated as integral to all chapters woven throughout rather than tacked on as separate units Digging Deeper resources on the new companion website include concrete resources that current and future teachers can use in their classrooms Tools for Critique provides instructors and students questions prompts and activities aimed at encouraging classroom discussion and particularly engaging those students least familiar with the central tenets of social justice education

Organizational Ethics Craig E. Johnson, 2020-12-28 With an interdisciplinary focus Organizational Ethics equips students with the knowledge and skills they need to make a positive impact in a variety of workplaces Author Craig E Johnson builds the text around interdependent levels of organizational behavior examining ethics at the individual group and organizational levels Self assessments reflection features and application projects give students ample opportunity to practice their ethical reasoning abilities The Fifth Edition includes over 25 new case studies on current events and prominent figures 24 new self assessments and new discussions on topics such as cross cultural ethical conflict and organizational virtue
