

KEY CONCEPT

Solving inequalities with addition and subtraction is the same as solving equations with addition and subtraction. Use the same relationship between addition and subtraction to isolate the variable.

$$\begin{aligned}x + 12.75 &= 25.00 \\x + 12.75 - 12.75 &= 25.00 - 12.75 \\x &= 12.25\end{aligned}$$

Remember: The addition and subtraction properties of inequality are like the addition and subtraction properties of equality.

$$\begin{aligned}x + 12.75 &= 25.00 \\x + 12.75 - 12.75 &= 25.00 - 12.75 \\x &= 12.25\end{aligned}$$

Do You Understand?

1. **Communicating** How is solving inequalities with addition and subtraction similar to and different from solving equations with addition and subtraction?

2. **Do Now** How do the solutions of the two inequalities differ? Are any of the solutions the same? Explain. 

a. $x + 5 < 8$ and $x + 5 < 8$

b. $x + 1 < 8$ and $x + 1 < 8$

3. **Reasoning** Write two different inequalities in which one of the solutions is the same as the solution to $x + 25 < 10$. 

Do You Know How?

4. **Solve** each inequality. Then graph the solution.

a. $x + 5 < 2$

b. $x + 3 < 8$

c. $x - \frac{1}{2} < -2$

5. **Estim** is driving below the speed limit on a highway.

- a. Write the inequality to show how much faster Estim can drive without going over the speed limit.

- b. Solve the inequality you wrote. By how much can Estim increase her speed?

Name _____

Practice & Problem Solving

Excluded Practice In 6 and 7, fill in the boxes to solve each inequality. Then graph the solution.

6. $x + 3 < 7$

$$x + 3 < 7$$

7. $x - 4 < 10$

$$x - 4 < 10$$

8. **Solve** $x + 15 < 14$. Then graph the solution.

9. **Solve** $x - 20 < -11$. Then graph the solution.

10. The maximum number of students in a classroom is 25. If there are 18 students signed up for the art class, how many more students can join the class without exceeding the maximum?

11. **Higher Order Thinking** The inequality $x + 1 < -2$ has the solution $x < -3$. What is the value of x that fits your model?

12. **Energy** Climbing a mountain, the hiker will get tired fast (only). Write an inequality to show the necessary distance d so that the hiker could reach the peak.

Envision Math Book Grade Answers

Envision Math Book Grade Answers:

Reviewing **Envision Math Book Grade Answers**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is truly astonishing. Within the pages of "**Envision Math Book Grade Answers**," an enthralling opus penned by a very acclaimed wordsmith, readers embark on an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve into the book's central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
