Get Big Things Done The Power Of Connectional Intelligence:

Get Big Things Done Erica Dhawan, Saj-nicole Joni, 2015-02-24 An insightful look at the new phenomenon called connectional intelligence and how to make it work for you **The Power of Perception** Diane Hamilton, Maja Zelihic, 2020-12-12 In today's diverse business world we must know when our perceptions are working for us and when they're working against us How we perceive not what we perceive is what influences how and what we think and believe which in turn affects our behaviors If we are to engage others both of our own and other cultures we must become more aware more self-aware of our perceptions and those of others We can shape and alter our thinking to allow our perceptions to help us become more effective employees decision makers and leaders **The Excellence Dividend** Tom Peters, 2018-04-03 Brilliantly simple actionable guidelines for success that any business leader can immediately implement Tom Peters' new book is a bundle of beautiful dynamite While I've been a CEO for 30 years I still learned much worth knowing from *The Excellence Dividend* You will too John C Bogle founder Vanguard For decades Tom Peters has been preaching the gospel of putting people first and in today's rapidly changing business environment this message is more important than ever With his unparalleled expertise and inimitable charisma Peters provides a roadmap for you and your organization to thrive amidst the tech tsunami and he has a lot of fun doing it *The Excellence Dividend* is an important new book from one of today's greatest business thinkers [Philosophy@Work](#) Anders Indset, 2022-08-18 For decades business management teams have learned lessons and absorbed wisdom from an array of disciplines psychology sociology biology and more but philosophy and the wisdom it embodies has long been overlooked World renowned business philosopher Anders Indset wants to correct this oversight through his mission to introduce practical philosophy into every organisation Intended as a source of inspiration *Philosophy@Work* explores the integration of philosophical tenets into the business landscape and how they can be applied to personal development the art of leadership and coping with the forces of change Within its pages are reflections from twenty-seven of the world's leading business thinkers including Dorie Clark Erica Dhawan Mark Esposito Stew Friedman Marshall Goldsmith Anil K Gupta Gianpiero Petriglieri Haiyan Wang and many more Through articles interviews and essays they share their insights into the profound impact philosophy can have on business This is a starting point to a world of practical applied philosophy a first glimpse into the beginning of a new era **The Basecamp Manifesto** Terence C. Young, 2024-10-23 It is often said that it is lonely at the top But this loneliness can be dangerous not only to the leader but also to the led It turns out we hold our environments as we are held If we are not held in a caring and daring fashion it shows up in how we live and lead *The Basecamp Manifesto* is a formative work on developing and sustaining leadership skills Here Terence Young outlines the development of a changed narrative around leading organizations Rather than the often stereotyped perception of leadership as a solitary ascent to the top followed often by an equally solitary descent down the leadership peak Young has created a framework for leadership that relies on developing a basecamp of companions Like the familiar basecamps of

extraordinary physical ascents of Mount Everest and other spectacular and spectacularly challenging peaks a leader's basecamp is a secure base of trusted and trusting peers that shape and nurture you during the ascent to leadership Young presents the gifts that current and future leaders should find in a secure base greater clarity in the sense making process enhancement of agility in navigating dynamic situations building endurance to face challenges and fostering generativity for greater productivity and innovation in one's life quest The Basecamp Manifesto is written for leaders of all organizations whether for profit or nonprofit Whether a business leader an educational leader a political leader a religious leader or other society facing leader all leaders face particular and specific challenges in leadership How do I lead and navigate with those in my circle through a world of increasing volatility uncertainty complexity and ambiguity For the sake of those you lead Young's groundbreaking work says to leaders find your people find your secure base find and shape and nurture the circle of trust that can make you a quality leader The Basecamp Manifesto can help you to become intentional about shaping relationships where clarity agility durability and generativity can be found and fostered
