The Politics and Governance of Basic Education Brian Levy, Robert Cameron, Ursula Hoadley, Vinodhan Naidoo, 2018-08-24 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world economic inclusion has risen to the top of the development discourse. A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation. **The Politics and Governance of Basic Education** explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making progress combining practical steps to achieve incremental gains to re-orient the system towards learning.

Rural Education Across the World Simone White, Jayne Downey, 2021-03-22 This book brings together authors from United States, South Africa, United Kingdom, China, Canada, and Australia to provide insights and case studies from across a range of contexts to explore the interplay between the notions of rurality, innovation, and education. The book reveals a hopeful and resilient approach to innovative rural education and scholarship collectively and provides important evidence to speak against an often deficit view of rural education. Three patterns are revealed: namely, the importance of place attentive strategies, the importance of joined up alliances to maximise resources and networks, and finally, the need to utilize alternative methodologies and frameworks that have a starting point of difference rather than deficit for any rural initiative or approach. By drawing from international examples and responding in innovative ways to rural education challenges, this book provides an opportunity to share international insights into innovations, interventions, and partnerships that promote and support rural education in its broadest sense.

Bilingual Education and Language Policy in the Global South Jo Arthur Shoba, Feliciano Chimbutane, 2013-07-18 This volume considers a range of ways in which bilingual programs can make a contribution to aspects of human and economic development in the global South. The authors examine the consequences of different policies, programs, and pedagogies for learners and local communities through recent ethnographic research on these topics. The revitalization of minority languages and local cultural practices, management of linguistic and cultural diversity, and promotion of equal opportunities both social and economic are all explored in this light.

Minority Languages and Multilingual Education Durk Gorter, Victoria Zenotz, Jasone Cenoz, 2013-11-04 This book presents research on the situation of minority language

schoolchildren face when they need to learn languages of international communication in particular English. The book takes minority languages as a starting point and it bridges local and global perspectives in the analysis of multilingual education contexts. It examines the interaction of minority languages and cultures, majority languages and lingua francas in a variety of settings across different regions and countries on all continents. Even though all chapters in this book involve minority languages, the issues discussed are relevant to any context in which more than language is used in education. The book reveals challenges and opportunities of multilingual education by discussing issues such as Northern and Southern concepts, language education policies, language diversity, interethnic understanding, multimodal language practices, power, conflict, identity and prestige among many others. This is the volume that finally accounts for multilingual education from a truly multilingual perspective by involving proposals and research from a variety of multilingual speech communities in the world. The linguistically rich Ethiopia and Mexico can teach the poor Europe and other Northern countries about multilingual education. CLIL promoters may learn from Finnish, Sami and Canadian Innu and Mi'gmaq indigenous communities as well as from Basque results. Speakers and teachers of minority and international languages will certainly be glad to hear the news. There is no need for a monolingual bias or tunnel vision in acquiring English in non-English speaking communities. This volume includes new challenging pedagogical perspectives while pointing to interesting conclusions for worldwide educational authorities. Teaching In and Beyond Pandemic Times Jonathan D Jansen, Theola Farmer-Phillips, 2021-07-01. Here for the first time is an account of the inner lives of teachers during and immediately after the pandemic lockdown. What is teaching like during a pandemic? How did teachers manage their emotional lives as colleagues became infected, hospitalised and died? What did teachers actually do to bridge the gap in teaching and learning where schools and homes lacked electronic resources? These are amongst the many questions on which this collection of teacher stories sheds light. Most of these are stories of hope, resilience and enormous courage in the face of a deadly virus. Your faith in teachers and teaching will be restored after reading this book. *Financial Mail*, 2006-07

Gender & Behaviour, 2003. *Investigating the Roles of School Management Teams in Curriculum Delivery* Mawela, Ailwei Solomon, van Wyk, Micheal M., Lebeloane, Lazarus, Mudau, Awelani V., 2021-06-25. The COVID 19 pandemic has introduced a new paradigm in education that has forced school management teams to re-imagine their curricula delivery functions and obligations during and post COVID 19. Now there are concerns about the state to which curriculum delivery in schools is likely to become planned, implemented and managed. *Investigating the Roles of School Management Teams in Curriculum Delivery* improves the quality of planning, implementation and management of curriculum delivery to advance the quality of teaching and learning in schools. Particularly it envisages innovative strategies, best practices and addresses problems in the planning, implementation and delivery of curricula by school management teams. Covering topics such as curriculum delivery theory, curriculum delivery in planning, implementation and management during and post COVID 19.
