The Design of Books Debbie Berne, 2024-03-12 Seasoned designer Debbie Berne presents an accessible introduction to book design for authors, editors, and other book people. Design is central to the appeal, messaging, and usefulness of books, but to most readers, it's mysterious or even invisible. Through interiors as well as covers, designers provide structure and information that shape the meaning and experience of books. In *The Design of Books*, Debbie Berne shines a light on the conventions and processes of her profession, revealing both the aesthetic and market-driven decisions designers consider to make books readable and beautiful. In clear, unstuffy language, Berne reveals how books are put together, with discussions of production considerations, typography, and fonts, page layouts, use of images, and color, special issues for ebooks, and the very face of each book: the cover. *The Design of Books* speaks to readers and directly to books creators: authors, editors, and other publishing professionals, helping them to become more informed partners in the design of their projects. Berne lays out the practical steps at each stage of the design process, providing insight into who does what, when, and offering advice for authors on how to be effective advocates for their ideas while also letting go and trusting their manuscripts with teams of professionals. She includes guidance as well for self-publishing authors, including where to find a designer, what to expect from that relationship, and how to art-direct your own book. Throughout, Berne teaches how understanding the whats, hows, and whys of book design heightens our appreciation of these cherished objects and helps everyone involved in the process to create more functional, desirable, and wonderful books.

[A Library of Misremembered Books](#) Marina Luz, 2021-10-05 How do you find a book when you can't recall the title or the author? This homage to a common reader's dilemma is a gift the booklover in your life won't soon forget. Readers know all too well the comedy and tragedy of forgetting the name of a must-find book. Inspired by this torturous predicament, artist Marina Luz creates paintings of books based on the descriptions we use when we can't remember their titles, mining Internet book search forums for the quirky, vague, and often hilarious language we come up with in these moments. This volume collects dozens of these imaginary books into a library all their own. Titles like *Cat Possibly Named Henry*, *It Was All a Dream*, or *Something Something Beverly Hills* inspire dreaming up their contents, often as entertaining as trying to guess the real book behind them. A celebration of book love.
