**Risk-Based Waste Classification in California** National Research Council, Division on Earth and Life Studies, Commission on Life Sciences, Committee on Risk-Based Criteria for Non-RCRA Hazardous Waste, 1999-08-14

The Department of Toxic Substances Control DTSC of the State of California Environmental Protection Agency is in the process of complying with the Regulatory Structure Update. The Regulatory Structure Update is a comprehensive review and refocusing of California's system for identifying and regulating management of hazardous wastes. As part of this effort, the DTSC proposes to change its current waste classification system that categorizes wastes as hazardous or nonhazardous based on their toxicity. Under the proposed system, there would be two risk-based thresholds rather than the single toxicity threshold currently used to distinguish between the wastes. Wastes that contain specific chemicals at concentrations that exceed the upper threshold will be designated as hazardous; those below the lower threshold will be nonhazardous, and those with chemical concentrations between the two thresholds will be special wastes and subject to variances for management and disposal. The proposed DTSC system combines toxicity information with short or long term exposure information to determine the risks associated with the chemicals. Under section 57004 of the California Health and Safety Code, the scientific basis of the proposed waste classification system is subject to external scientific peer review by the National Academy of Sciences, the University of California, or other similar institution of higher learning or group of scientists. This report addresses that regulatory requirement.

*Politics and the Life Sciences*, 1990 *The Life of Florence Nightingale* Sir Edward Tyas Cook, 2022-01-04

*The Life of Florence Nightingale* is a two-volume biography of a famous founder of modern nursing, written by English man of letters Sir Edward Tyas Cook. Florence Nightingale was an English social reformer, statistician, and the founder of modern nursing. Nightingale came to prominence while serving as a manager and trainer of nurses during the Crimean War, in which she organized care for wounded soldiers at Constantinople. She gave nursing a favorable reputation and became an icon of Victorian culture, especially in the persona of "The Lady with the Lamp" making rounds of wounded soldiers at night. The quality of Cook's biography is that it draws extensively from Miss Nightingale's own correspondence and presents as closely as it can a person she was. First volume covers the period from 1820 to 1861, and second volume continues to follow events in her life from 1862 to 1910.

**American Genesis** Jeffrey P. Moran, 2012-03-15

Evolution has been a perennial flash point in American politics. But it is not merely a political issue. In *American Genesis*, Jeffrey P. Moran explores the ways in which the evolution debate has reverberated beyond the confines of state legislatures and courthouses. Moran shows that social forces such as gender, regionalism, and race have intersected with the debate over evolution in ways that shed light on modern American culture. He investigates, for instance, how antievolutionism deepened the cultural divisions between North and South, as when northern elites embraced evolution as a sign of sectional

enlightenment while southern opponents defined themselves as the standard bearers of true Christianity Evolution debates also exposed a deep gulf between conservative Black Christians and secular intellectuals such as W E B DuBois In addition Moran explores the motives and methods of antievolutionism and the ways in which the struggle has played out in the universities on the internet and even within the evangelical community Throughout Moran shows that evolution has served as a weapon as an enforcer of identity and as a polarizing force both within and without the churches The Life & Legacy of the Most Influential Women in History Elizabeth Cady Stanton, Julia Ward Howe, Emmeline Pankhurst, Mother Jones, Helen Wright, Margaret Sanger, Helen Keller, Catherine H.
