Hiebert, 2015 This one-of-a-kind resource will be invaluable to every teacher, educator, every curriculum director, and every literacy coach, whether or not they must meet Common Core Standards. Bringing together perspectives from literacy luminaries, each addressing their specialty, this book offers an accessible fund of rich practices in literacy instruction. The book serves two

purposes First it assembles a body of knowledge and wisdom from leading literacy researchers who each draw from a long career in the field to address topics of central importance to good literacy instruction Second these research to practice leaders connect established best practices and foundational research to the current challenge of instruction to meet Common Core Standards and other rigorous curriculum guidelines The contributors point out strengths of the Common Core as well as issues and oversights that educators should be aware of Closing chapters situate the Common Core within a continuum of educational policy and legislation Contributors Richard L Allington Monica T Billen Jay S Blanchard Robert Calfee Gina N Cervetti Michael F Graves John T Guthrie Elfrieda H Hiebert James V Hoffman Rosalind Horowitz Michael L Kamil Barbara Kapinus Richard Long Leigh Ann Martin Kimberly McCuiston James Nageldinger David Paige P David Pearson Timothy Rasinski S Jay Samuels Barbara Taylor Joanna P Williams Kathleen Wilson Pearson and Hiebert have long advocated for children in schools and this volume is no exception They and their chapter authors situate the CCSS within the historical and policy context in which it was written and support the literacy education community as we wrestle with the implications the standards have for research for teachers for teaching and for learning Sharon Walpole University of Delaware This book gets way beyond generalities and polemics about the Common Core taking a deep and measured dive into a wide range of essential topics within the standards I read a lot and I can t think of the last time I read anything about the CCSS as engaging and thought provoking as this Nell K Duke University of Michigan Vocabulary Instruction for Struggling Students Patricia F. scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers
