Federal Register ,1978-12 Challenging the Legal Boundaries of Work Regulation Judy Fudge,Shae McCrystal,Kamala Sankaran,2012-07-11 Focusing on paid work that blurs traditional legal boundaries and the challenge this poses to traditional forms of labour regulation this collection of original case studies illustrates the wide range of different forms of regulation designed to provide decent work The original case studies cover a diversity of workers from across developed and developing countries the formal and informal economies and public and private work spaces Each deals with the failings of traditional labour law and several explore the capacity of different forms of regulatory techniques such as commercial law corporate codes of conduct or supply chain regulation to protect workers **Simple Rules** Donald Norman Sull,Kathleen M. Eisenhardt,2015 Outlines an approach to high performance problem solving and decision making that draws on insights from survival guides pop culture and other sources **Management and Governance of Networks** George W. J. Hendrikse,Gérard Cliquet,Thomas Ehrmann,Josef Windsperger,2017-05-16 This book highlights cutting edge research in the economics and management of networks as an interdisciplinary field offering new theoretical empirical and practical perspectives on the management governance ownership and control of cooperatives franchising networks and strategic alliances Further it presents a strategic group perspective on franchisers and discusses both social entrepreneurship issues in franchising and franchising strategies for Indigenous entrepreneurship in Australia Lastly it offers a dynamic capabilities approach to alliance portfolio management and analyses the antecedents of the transitions taking place in the lifecycles of alliances **Service World International** ,1976 **Innovations in Big Data Mining and Embedded Knowledge** Anna Esposito,Antonietta M. Esposito,Lakhmi C. Jain,2019-07-03 This book addresses the usefulness of knowledge discovery through data mining With this aim contributors from different fields propose concrete problems and applications showing how data mining and discovering embedded knowledge from raw data can be beneficial to social organizations domestic spheres and ICT markets Data mining or knowledge discovery in databases KDD has received increasing interest due to its focus on transforming large amounts of data into novel valid useful and structured knowledge by detecting concealed patterns and relationships The concept of knowledge is broad and speculative and has promoted epistemological debates in western philosophies The intensified interest in knowledge management and data mining stems from the difficulty in identifying computational models able to approximate human behaviors and abilities in resolving organizational social and physical problems Current ICT interfaces are not yet adequately advanced to support and simulate the abilities of physicians teachers assistants or housekeepers in domestic spheres And unlike in industrial contexts where abilities are routinely applied the domestic world is continuously changing and unpredictable There are challenging questions in this field Can knowledge locked in conventions rules of conduct common sense ethics emotions laws cultures and experiences be mined from data Is it acceptable for automatic systems displaying emotional behaviors to govern complex interactions based solely

on the mining of large volumes of data Discussing multidisciplinary themes the book proposes computational models able to approximate to a certain degree human behaviors and abilities in resolving organizational social and physical problems The innovations presented are of primary importance for a The academic research community b The ICT market c Ph D students and early stage researchers d Schools hospitals rehabilitation and assisted living centers e Representatives from multimedia industries and standardization bodies Report ,1987 *Mergers & Acquisitions of Franchise Companies* ,1996
