rights Are they laid out definitively in the UN's Universal Declaration of Human Rights or the US Bill of Rights Are they items  
on a checklist dignity justice progress standard of living health care housing In *The Most Human Right* Eric Heinze explains  
why global human rights systems have failed International organizations constantly report on how governments manage  
human goods such as fair trials humane conditions of detention healthcare or housing But to appease autocratic regimes  
experts have ignored the primacy of free speech Heinze argues that goods become rights only when citizens can claim them  
publicly and fearlessly free speech is the fundamental right without which the very concept of a right makes no sense Heinze  
argues that throughout history countless systems of justice have promised human goods What then makes human rights

different What must human rights have that other systems have lacked Heinze revisits the origins of the concept exploring what it means for a nation to protect human rights and what a citizen needs in order to pursue them He explains how free speech distinguishes human rights from other ideas about justice past and present The uneven path of British Liberalism Tudor Jones, 2019-09-13 This book charts the development of political thought within the British Liberal Party and its successor the Liberal Democrats Beginning with Jo Grimond's rise to the leadership in 1956 it follows the Liberal resurgence in the second half of the twentieth century through to the major setbacks of the 2015 general election and the 2016 referendum on UK membership of the European Union Drawing on interviews with leading politicians and political thinkers the book examines Liberal ideas against the background of key historical events and controversies including the period of coalition government with the Conservatives The London Stage 1890-1899 J.
