Han,2018-04-10 The Internet was supposed to be an antidote to authoritarianism It can enable citizens to express themselves freely and organize outside state control Yet while online activity has helped challenge authoritarian rule in some cases other regimes have endured no movement comparable to the Arab Spring has arisen in China In Contesting Cyberspace in China Rongbin Han offers a powerful counterintuitive explanation for the survival of the world s largest authoritarian regime in the digital age Han reveals the complex internal dynamics of online expression in China showing how the state service providers and netizens negotiate the limits of discourse He finds that state censorship has conditioned online expression yet has failed to bring it under control However Han also finds that freer expression may work to the advantage of the regime because its critics are not the only ones empowered the Internet has proved less threatening than expected due to the multiplicity of beliefs identities and values online State sponsored and spontaneous pro government commenters have turned out to be a

major presence on the Chinese internet denigrating dissenters and barraging oppositional voices Han explores the recruitment training and behavior of hired commenters the fifty cent army as well as group identity formation among nationalistic Internet posters who see themselves as patriots defending China against online saboteurs Drawing on a rich set of data collected through interviews participant observation and long term online ethnography as well as official reports and state directives Contesting Cyberspace in China interrogates our assumptions about authoritarian resilience and the democratizing power of the Internet
