Macroeconomic Developments and Prospects in Low-Income Developing Countries - 2016 International Monetary Fund. Strategy, Policy, & Review Department, International Monetary Fund. Fiscal Affairs Dept., International Monetary Fund. Monetary and Capital Markets Department, International Monetary Fund. Asia and Pacific Dept, 2016-11-23 This paper is the third in a series assessing macroeconomic developments and prospects in low income developing countries LIDCs The first of these papers IMF 2014a examined trends during 2000 2014 a period of sustained strong growth across most LIDCs The second paper IMF 2015a focused on the impact of the drop in global commodity prices since mid 2014 on LIDCs a story with losers countries dependent on commodity exports notably fuel and winners countries with a more diverse export base where growth remained robust The overarching theme in this paper's assessment of the macroeconomic conjuncture among LIDCs is that of incomplete adjustment to the new world of lower for long commodity prices with many commodity exporters still far from a sustainable macroeconomic trajectory Chapter 1 The analysis of risks and vulnerabilities focuses on financial sector stresses and medium term fiscal risks pointing to the actions including capacity building needed to manage and contain these challenges over time Chapter 2 With 2016 the first year of the march towards the 2030 development goals the paper also looks at how infrastructure investment can be accelerated in LIDCs given that weaknesses in public infrastructure such as energy transportation systems in LIDCs are widely seen as a key constraint on medium term growth potential Chapter 3 With the sharp adjustment in commodity prices now into its third year some of the key messages of the paper are familiar a many commodity exporters notably fuel producers remain under significant economic stress with sluggish growth large fiscal imbalances and weakened foreign reserve positions b countries with a more diversified export

base are generally doing well although several have been hit by declines in remittances conflict natural disasters and the contractionary impact of macroeconomic stabilization programs c widening fiscal imbalances in both commodity and diversified exporters have resulted in rising debt levels with severe financing stress emerging in some cases and d financial sector stresses have emerged in many LIDCs with expectations that these strains will increase in many commodity exporters over the next 12 18 months Key messages on financial sector oversight on medium term fiscal risks and on tackling infrastructure gaps are flagged below Read Executive Summary in Arabic Chinese French Spanish
