This framework describes a lifespan developmental personality model of nine distinct key strategies that people use to make sense of and cope with their experiences and interactions with the world. These strategies can be understood as nine Patterns of Developmental Pathways or PDPs. This book provides mental health practitioners with both a theoretical understanding of PDPs and practical tools for implementing the framework in clinical settings. The objective of this book is to bring to the reader an understanding of the differences in people based on the growing body of research and to promote a respect for those differences.
