America, the Owner's Manual Bob Graham, Chris Hand, 2016-07-15

In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a populist platform against the influence of big money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don't have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can't fight City Hall That perception is undoubtedly why

a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought. Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles. They describe effective citizenship skills and provide tips from civic experts. Even more importantly, they offer numerous examples of everyday Americans who have used their skills to make democracy respond. The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy. By the end of the book, you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you, not the other way around. *Neighborhood Networks Funding Guide*, 1999 **Foundation Grants to Individuals**, 2007 The Job Seekers Guide Timothy M. Resch, 1990 AURA and Its US National Observatories Frank K. Edmondson, 1997-03-06 A new source of funding for astronomy stemmed from the creation of the National Science Foundation (NSF) in 1950. Astronomers were quick to take advantage of the opportunity to found new observatories. The science and politics of the establishment funding, construction, and operation of the Kitt Peak National Observatory (KPNO) and the Cerro Tololo Inter American Observatory (CTIO) by the Association of Universities for Research in Astronomy (AURA) are here seen from the unique perspective of Frank K. Edmondson, a former member of the AURA board of directors. *Resources in Education*, 2001 **Audiovisual Guide to the Catalog of the Food and Nutrition Information and Educational Materials Center** Food and Nutrition Information Center (U.S.), 1977 **Collaborative Grant-Seeking** Bess G. de Farber, 2016-05-08 A collaborative approach to grant seeking can stimulate and reshape the culture of your library organization. The exciting and rewarding activities of developing a successful grants program can yield enormous dividends for the benefit of your staff, patrons, and community. *Collaborative Grant Seeking: A Practical Guide for Librarians* will share new insights for those who want to access grant funding without reinventing the wheel. Based on years of practical grant writing and collaboration development experience, this resource provides a complete guide for setting up a library grant seeking program and for combining forces with community partners to increase grant funding to libraries. Venturing into the grants world can be scary and unpredictable. This book offers detailed strategies and practical steps to establish a supportive and collaborative environment that creates the capacity to consistently develop fundable proposals and gives readers the confidence needed to make grant seeking activities commonplace within libraries. *Collaborative Grant Seeking* will share featured topics unavailable in other grant writing publications, such as interpreting sponsor guidelines, identifying appropriate funding programs, determining the feasibility of project ideas, asset-based vs. need-based proposal development strategies, actual examples of successful and unusual library projects, initiating and sustaining collaborative relationships.
