Choosing Web 2.0 Tools for Learning and Teaching in a Digital World Pam Berger, Sally Trexler, 2010-04-09 Choosing Web 2.0 Tools for Learning and Teaching in a Digital World provides practical strategies and examples to effectively integrate Web 2.0 tools to support the inquiry process in the school library program and the classroom curriculum. Targeted for school librarians, this book addresses the questions: What is digital literacy? How is learning different in a digital world? And the most important questions: what are the best strategies, resources, and tools to support effective teaching and learning in a digital environment? The first two chapters of the book provide the important context for school librarians' research on student learning behaviors in a digital environment, Web 2.0 background and characteristics, and alignment with the new AASL Standards for the Twenty-first Century Learner and the Stripling Inquiry Process, Grades 4-12.

Beyond the Grammar Wars Terry Locke, 2010-04-05 Are there evidence-based answers to the broad question: What explicit knowledge about language in teachers and/or students appears to enhance literacy development in some way? Distinguished by its global perspective, its currency, and its comprehensiveness, *Beyond the Grammar Wars* provides an historical overview of the debates around grammar and English literacy teaching in four settings: the US, England, Scotland, and Australia. It offers an up-to-date account of what the research is telling and not telling us about the effectiveness of certain kinds of grammar-based pedagogies in English literacy classrooms. It takes readers into English literacy classrooms through a range of examples of language grammar-based pedagogies which have proven to be successful. It addresses metalinguistic issues related to changes in textual practices in a digital and multimodal age and explores the challenges for educators who are committed to finding a usable grammar to contribute to teaching and learning in relation to these practices. All of the contributors are acknowledged experts in their field. Activities designed for use in language and literacy education courses actively engage students in reflecting on and applying the content in their own teaching contexts.
