eBook was written for students taking introductory Physical Geography taught at a college or university For the chapters
currently available on Google Play presentation slides Powerpoint and Keynote format and multiple choice test banks are
available for Professors using my eBook in the classroom Please contact me via email at Michael.Pidwirny@ubc.ca if you would
like to have access to these resources The various chapters of the Google Play version of Understanding Physical Geography
are FREE for individual use in a non classroom environment This has been done to support life long learning However the
content of Understanding Physical Geography is NOT FREE for use in college and university courses in countries that have a
per capita GDP over 25 000 US dollars per year where more than three chapters are being used in the teaching of a course
More specifically for university and college instructors using this work in such wealthier countries in a credit based course
where a tuition fee is accessed students should be instructed to purchase the paid version of this content on Google Play
which is organized as one of six Parts organized chapters One exception to this request is a situation where a student is
experiencing financial hardship In this case the student should use the individual chapters which are available from Google
Play for free The cost of these Parts works out to only 0.99 per chapter in USA dollars a very small fee for my work When the
entire textbook 30 chapters is finished its cost will be only 29.70 in USA dollars This is far less expensive than similar
textbooks from major academic publishing companies whose eBook are around 50.00 to 90.00 Further revenue generated
from the sale of this academic textbook will provide the carrot to entice me to continue working hard creating new and
updated content Thanks in advance to instructors and students who abide by these conditions IMPORTANT This Google Play
