Coaching and Mentoring for Business Grace McCarthy, 2014-03-14. Coaching and Mentoring for Business seeks to go beyond the vast body of skills based literature that dominates the study of coaching and mentoring and focus on the contribution that coaching can make to the implementation of human resource strategy and organizational strategy. Grace McCarthy includes an introduction to coaching and mentoring theory then goes on to look at coaching and mentoring skills and how they may be applied in relation to individual change, coaching and mentoring for leaders and by leaders, coaching and mentoring for strategy innovation and organisational change as well as coaching and mentoring in cross cultural and virtual contexts. Coaching and Mentoring for Business also explores ethical issues in coaching and mentoring before concluding with the evaluation of success in coaching and mentoring and a discussion of emerging issues. Key Features: Vignettes to help readers consolidate their learning by illustrating real life situations. Web links to useful academic and professional resources. A companion website with PowerPoint slides, a lecturer's guide and self assessment quizzes available.

Current Theory and Research in Transforming Organizations Chester A. Schriesheim, Linda L. Neider, 2016-09-01. Perhaps the best word to describe the past fifteen or so years of the twenty first century is change. Spurred on by the massive layoffs and reorganizations that took place during the recessionary period starting in late 2007 to changes in labor demographics, technology, competitiveness and the very nature of work, business transformations have become the norm. Even the most stodgy and inflexible organizations, universities are beginning to understand the need for radical change if they hope to be sustainable in the future. From our perspective as researchers in management we became increasingly interested in new trends and ideas in the field of transforming business and non profit enterprises. What are the variables associated with success? What determinants may mediate whether or not change efforts actually lead to more sustainable systems? And how do such change efforts differ from strategic planning which has obviously been around and used for many years? To begin answering such questions this volume attempts to bring together a number of scholars who present conceptualizations and preliminary research insights concerning organizational change and in two of the chapters explore the relationship between change efforts and strategy formulation/implementation.

The Internationalisation Strategies of Small-country Firms Howard Dick, David Merrett, 2007-01-01. This research project combines contemporary and historical analysis to trace the evolution of Australian multinationals. It provides unique insights into how firms from a small economy achieved global competitiveness in their niche markets while examining the barriers that inhibited others. The evidence is presented in comparative industry and firm

case studies and tells the story of international business made in Australia The longitudinal and multi level analysis in this research provides new insights that challenge the predominance of cross sectional analytical framework dominating strategic management Any scholars sincerely interested how companies from small countries can succeed on the global stage ought to read this book Klaus E Meyer University of Reading Business School UK The international business literature often struggles to depict a universal experience of internationalisation from the perspective of large countries This book seeks to enrich the literature by providing a nuanced overview of the little known Australian experience being an atypical case of a small to medium sized economy which liberalised rapidly from the 1980s outside any trading bloc Six data rich survey chapters explore Australia s mixed success in founding its own multinationals The experience of Australian firms is set in historical and comparative perspective including interactions with inward and specifically American FDI Five industry studies next consider why firms in retail wine and professional services were more successful than in financial services and shipping Nine detailed case studies of firms then identify the elements of administrative heritage strategy and learning that have been the key to success or failure The book concludes by outlining what can be learned from Australia s example and presenting implications for future research The Internationalisation Strategies of Small Country Firms will appeal to scholars researchers and postgraduate students in international business and international economics
