

## Human Blood Cell Typing

What divided your team?

### Object

The objective of this activity is to understand blood typing and its importance to the healthcare. Using simple interactions with a few previously learned substances (eggs, the body is now able to produce clumps and this will indicate the presence of antigens. Human red blood cells have 2 systems for being recognized and with that being said they are large cellular structures are being used to represent.

### Object 1 – Red Blood Cells and Antigenes

|                                              | Person with Blood Type A                                                          | Person with Blood Type B                                                          | Person with Blood Type AB                                                           | Person with Blood Type O                                                            |
|----------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| Cells with attached antigens                 |  |  |  |  |
| Antibodies produced                          |  |  |  |  |
| Cells for the person's all anti-A antibodies |  |  |  |  |
| Cells for the person's all anti-B antibodies |  |  |  |  |

- Remembering that blood agglutination was demonstrated by clumping or absence of clumping, use the information the red blood cells.
- Remembering to Object 1, how many blood types are there? (the answer is produced)
  - Four blood types
- What group is used in Object 1 as represent of A antigen?
  - Anti-B antibody
- What blood type's anti-A antibodies will form clumps of unclumped cells?
  - Type B and Blood type AB (A antigens are present, while type B has blood cells that have B antigens on their surface)
