the DKW badge and the original Sachs Enduro Cross Country and Moto Cross models disappeared from the USA market in late 1971. However, they were replaced by 125cc DKW Enduro Boondocker Moto Cross and Hornet models that were mechanically identical to the previous Sachs models, a true case of badge engineering. In 1968, when Sachs introduced their 100cc and 125cc series of 2-stroke engines, it was not long before the off-road and competition world recognized their durability and performance. Consequently, within a short period of time, Sachs engines were in use by a large number of other motorcycle manufacturers. Perhaps the most prominent USA manufacturer being Penton Motorcycles, who produced their first competition Sachs-powered models in 1968. Floyd Clymer quickly realized that there was a need for service and repair information for these engines, and he set about preparation of an appropriate manual in early 1969. *Honda MSX125 (GROM) '13 to '18* Editors of Haynes Manuals, 2020-02-25.
