Playing the Market Kieran Heinemann, 2021-06-22 Nowhere in Europe are people more likely to enjoy a regular flutter in stocks and shares than in Britain Whether we consider the millions of online stockbroking accounts or the billions spent on spread betting it is a national pastime in today's Britain to play the markets How did this distinctively British obsession with investment and speculation come about Playing the Market tells this story by exploring the history of financial capitalism in Britain during the twentieth century from below It explains how and why everyday British people increasingly invested speculated and gambled in stocks and shares from the outbreak of World War I over the postwar decades and the Thatcher years up until the premiership of Tony Blair The study accounts for a momentous shift in attitudes towards stock market investment that occurred throughout the twentieth century In the interwar period traditional moral and cultural constraints about the stock market which were still powerful in the Victorian period gradually began to collapse in public and private life In the following decades financial securities lost their stigma of being either immoral or suitable only for the upper classes Promising higher than average returns and a similar thrill of risk and reward as gambling in horses or the football pools the stock market became a popular pastime for millions of Britons even in the postwar decades when Britain had nationalized industries and politicians of both parties indulged in staunchly anti finance rhetoric With the expansion of popular investment after both world wars Britain developed a stock market culture that was unique across Europe and gave rise to a market

populist sentiment that eventually proved fertile soil for the arrival of Thatcherism Finding List of Books in the Classes of Biography, History and Travels, Belonging to the Indianapolis Public Library Indianapolis Public Library,1904 *Bulletin of Books in the Various Departments of Literature and Science Added to the Public Library of Cincinnati During the Year...*,1883 Bulletin of Books in the Various Departments of Literature and Science Added to the Public Library of Cincinnati During the Year... Public Library of Cincinnati and Hamilton County,1883 **Canadian Books in Print. Author and Title Index** ,1975 **The Expert Negotiator** Raymond Saner,2008 Success in negotiation is not a matter of chance but the result of careful planning and specialized skills Some of these skills are inborn others need to be learnt In this book the social scientist and economist Professor Dr Raymond Saner draws on his long years of experience as a negotiation adviser teacher trainer researcher and university lecturer to show that two thirds of negotiation practice is learnable Yet very few people are specifically trained in this everyday task **Glamour** Professor Carol Dyhouse,2013-04-04 How do we understand glamour Has it empowered women or turned them into objects Once associated with modernity and the cutting edge is it entirely bound up with nostalgia and tradition This unique and fascinating book tells the story of glamour It explores the changing meanings of the word its relationship to femininity and fashion and its place in twentieth century social history Using a rich variety of sources from women s magazines and film to social surveys and life histories Carol Dyhouse examines with wit and insight the history and meaning of costume cosmetics perfume and fur Dyhouse disentangles some of the arguments surrounding femininity appearance and power directly addressing feminist concerns The book explores historical contexts in which glamour served as an expression of desire in women and an assertion of entitlement to the pleasures of affluence finally arguing that glamour can t simply be dismissed as oppressive or as male fantasy but can carry celebratory meanings for women **From Crisis to Crisis** Brian O'Sullivan,2018-12-11 From Crisis to Crisis examines the impact of the harsh conditions of the interwar economy on the British merchant banks The financial crises of 1914 and 1931 are assessed using primary sources The competitive threats including the rise of New York as a rival financial centre are considered It challenges alleged special treatment and provides fresh perspectives on the interwar rationalisation of industry During the late nineteenth century Britain s merchant banks had become pre eminent in a world of fixed exchange rates free trade and the unfettered mobility of international capital This world was increasingly challenged in the interwar period being replaced by floating exchange rates trade protectionism and restrictions on capital movements This book fills a gap in the historiography of British banking by recovering the histories of long forgotten merchant banks rather than focusing on the better known firms Using a wide range of archival resources it traces the strategic transformation by some merchant banks from higher risk capital intensive activities to lower risk advisory services Brian O Sullivan has been jointly awarded the 2019 BAC Wadsworth Prize for From Crisis to Crisis The Transformation of Merchant Banking 1914 1939 It was judged by the Business Archives Council BAC to have made an outstanding contribution to the study of British business history Brian

shared the prize with Professor Priya Satia of Stanford University in California
