Lie,1987 The rise and proliferation of Arthurian prose romances in France in the thirteenth century is attested most notably by the enormous corpus of Old French Arthurian prose romances known as the Vulgate Cycle According to most scholars the Vulgate Cycle in its original form comprised three prose romances the Roman de Lancelot en prose the Roman de la Queste del Saint Graal and the Roman de la Mort le Roi Artu At a later stage two other prose romances conceived as preliminary works to the original trilogy were added to the cycle the Estoire del Saint Graal and the Vulgate Merlin This

group of Old French Arthurian romances has survived in nearly one hundred manuscripts and was translated into almost all major Western European languages Of the three extant Middle Dutch translations of the Lancelot en prose Orlanda Lie has chosen the only verse translation preserved on two leaves of parchment the so called Rotterdam Fragments as the starting point for a comparison between the Middle Dutch the Middle High German and the Old French Lancelot en prose versions In this comparative analysis only a small portion of the extensive Lancelot en prose namely those sections that are parallel to the content of the Rotterdam Fragments will be involved The relation of the consulted French manuscripts to the Dutch and German Lancelot translations are ascertained in the light of insights gained from an investigation into the manuscript tradition of the Lancelot en prose sections which qualify for a comparison with the two Middle Dutch fragments Although the main emphasis of this study falls on the manuscript tradition of the Lancelot en prose a brief discussion of some of the important stylistic and structural characteristics of the Lancelot trilogy as a whole is presented especially since it is more than likely that the scope and complexity of the work has also influenced directly or indirectly its manuscript tradition A diplomatic and a critical edition of the Rotterdam Fragments as well as a translation in modern English are included in this volume

The Interlace Structure of the Third Part of the Prose Lancelot Frank Brandsma, 2010 Thematically and as a narrative technique interlace the complex weaving together of many different story telling strands comes to its full development in the intriguing conclusion of the Prose Lancelot The Grail appears on the horizon and although Lancelot's love for Guenevere still makes him the best knight in the world it becomes clear that this very love disqualifies him from the Grail Quest Meanwhile the adventures of a myriad Arthurian knights continue to be followed This study explains how the interlace works and shows that it is the perfect vehicle for the relation of the events It discusses the division of the narrative into threads their interweaving convergence and divergence the gradual introduction of the Grail theme and its first climax the begetting of Galahad the distribution of information to the audience the use of dramatic irony and emotions and many other aspects of this major innovation in story telling technique
