Morning (Time: 2 hours)

Paper Reference 1MME

Mathematics

Advanced

Paper 1: Pure Mathematics 1

You must have:

Mathematical Formulae and Statistical Tables, Calculator

Total marks

Candidates may use any approved calculator.
Calculators must not have the facility for symbolic algebra manipulation, differentiation and integration, or have retrievable mathematical formulae stored in them.

Instructions

- Use black ink or ball-point pen.
- If pencil is used for diagrams/sketches/graphs it must be dark (HB or B).
- Fill in the boxes at the top of this page with your name, centre number and candidate number.
- Answer all questions and ensure that your answers to parts of questions are clearly labelled.
- Answer the questions in the spaces provided - there may be more space than you need.
- You should show sufficient working to make your methods clear. Answers without working may not gain full credit.
- Incorrect answers should be given to three significant figures unless otherwise stated.

Information

- The total mark for this paper is 100.
- The marks for each question are shown in brackets - use this as a guide as to how much time to spend on each question.

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

Sovereign Credit Rating Ahmed Naciri, 2016-12-19 The current degradation of sovereign balance sheets raises very real concerns about how sovereign creditworthiness is measured by credit rating agencies Given the disastrous economic and social effects of any downgrade the book offers an alternative and calls for more transparency about the quantitative measures used in calibrating the rating process and how sovereign ratings are validated It argues that oversight is required and procedures improved including subjecting methodologies of

assessing default to more standardization and monitoring Sovereign Credit Rating explains the process of sovereign creditworthiness assessment and explores the consequences of possible inaccuracies in the process Developing an innovative new methodology to assess ratings accuracy it shows that the announcement of each rating action by the major credit rating agencies show alarming inconsistencies Written by an internationally recognized author and professor this unique book will be of interest to researchers and advanced students in corporate governance accounting public finance and regulation
