

Pump Up the Volume!

Volume

Volume is how much space an object takes up. The beaker on the left measures the volume of water in milliliters (mL). The beaker on the right measures the volume of an object with an irregular shape plus the volume of the water. To find the volume of just the orange, you must use subtraction:

$$\left\{ \begin{array}{l} \text{volume of water and orange} \\ - \text{volume of water} \\ \hline \text{volume of orange} \end{array} \right\}$$
A diagram illustrating the subtraction process. It shows a beaker with water and an orange object, a beaker with water, and an orange object. The beaker with water and the orange object is shown above the beaker with water, with an orange object shown below the beaker with water. This visualizes the subtraction of the water's volume from the total volume to find the object's volume.
