**How Computers Create Social Structures** Silvio Carta, 2024-09-17 This book introduces the idea of accidental collectives the grouping of people that occurs as a by product of the automated work of computers Software has a growing influence in our lives automating and optimising mundane time consuming and repetitive tasks In doing this groups of people are automatically created as the result of classification and data analysis Once grouped by the invisible agency of software people interact and establish new relationships generating new collectives and communities With the support of case studies and real life examples this work explores the accidental nature of the generation of new social groups and questions the role of software in social interactions

**Auravana Habitat System** Auravana, 2022-07-12 This publication is the Habitat System for a community type society A habitat a k a city town is a material operational service environment where humans live and have their needs fulfilled It is a service composed of interacting material objects This habitat system standard identifies the services technologies components and processes that compose a habitat service system A habitat service system encodes and expresses humanity s decided material fulfillment services When a decision resolves into a service that service is specified to exist in the habitat system Different configurations of a habitat lead to different levels and qualities of fulfillment The coherent integration and open visualization of the habitat system is important for human requirements to be met at the local and global level through scientific planning This standard represents the encoding of decisions into a global habitat service system with many local configurations of habitat that act together as a fulfillment platform for the whole community population The visualization and simulation of

humanity's interconnected habitat systems is essential for maintaining a set of complex fulfillment oriented constructions and operations that meet human fulfillment requirements This publication details what has been what is and what could be constructed in the material environment It depicts through language and symbols visualization and simulation a habitat service environment consisting of life technology and exploratory support services For anything that is to be constructed in the material system there is a written part a drawing part and a simulation part which is also how the material system is subdivided Further all habitats are designed and operated by means of master planning they all have a master plan
