Hiroyuki Hino,John Lonsdale,Gustav Ranis,Frances Stewart,2012-07-19 There is growing consensus in the development
economics literature that ethnic diversity is a very significant factor in explaining Africa s poor economic performance Ethnic
Diversity and Economic Instability in Africa challenges this conventional wisdom Drawing on the insights of historians
anthropologists and political scientists as well as development economists this book questions whether ethnicity is the most
useful organising principle by which to examine the economic development of Africa arguing that it is a more fluid and
contingent concept than economic models allow Instead the authors explore the actual experience of ethnicity in Africa and
propose new methods of measuring ethnic diversity and inequalities Finally some tentative conclusions are reached
