**Human Behavior in the Social Environment** José B. Ashford, Craig W. LeCroy, Kathy L. Lortie, 2006 Ashford LeCroy and Lortie's ground breaking book offers students a balanced integrated introduction to human behavior in the social environment. Lively and comprehensive, this book succeeds by helping students connect foundation knowledge with practice concerns. Clarified through the introduction of study tables and concept maps at the end of each discussion, behavior in the development chapters, the authors look at biopsychosocial development across the life span using an integrative multidimensional approach, discussing integrative practice theory, treatment and services throughout. This multidimensional framework provides a concrete tool for the reader to assess human behavior from a perspective that truly reflects the values and knowledge base of the social work profession. Together, the book's solid coverage of foundation knowledge, integration of the biopsychosocial dimensions for assessing social functioning, its multidimensional framework, and its use of case studies to illuminate the applied aspects of HBSE content, along with the authors' consistent attention to diversity, successfully combine to give readers a meaningful, exciting experience.

**Empowerment Series: Human Behavior in the Social Environment: A Multidimensional Perspective** Jose B. Ashford, Craig Winston LeCroy, Lela Rankin Williams, 2016-12-05

This lively, comprehensive introduction to human behavior in the social environment offers an integrative approach to biopsychosocial case formulations of current and developmental human behavior concerns. The sixth edition builds on prior efforts in promoting integrative assessments by adopting a specific method for completing case formulations that students apply to case studies in the book's developmental chapters. This innovation provides students with a bridge to the core competencies and recommended practice behaviors outlined in the 2015 Educational Policy and Accreditation Standards (EPAS) set by the Council on Social Work Education (CSWE), thus helping them connect foundation knowledge with practice concerns. Guidelines for practice and relevant assessment tools are identified for specific life tasks and for each phase of biopsychosocial development. This edition also offers concrete methods for the translation of developmental research to assessment practices.
