Finding True Magic: Transpersonal Hypnosis & Hypnotherapy/NLP Jack Elias, 2005-12-31 Finding True Magic is the primary training text for the Transpersonal Hypnotherapy NLP Certification Program offered by the Institute for Therapeutic Learning

Finding True Magic and the Transpersonal Hypnotherapy NLP trainings are appropriate for laypeople seeking personal growth as well as for therapists and other professionals intent on advancing their therapeutic skills In fact about 50 per cent of ITL students take the training primarily for personal development This book explores the possibilities for recognizing and freeing ourselves from a destructive process of perceiving thinking and acting that can be viewed as a pernicious worldwide syndrome Unlike other ailments which we strive to isolate and cure this insidious fever has a characteristic that makes us blind to its presence we come to identify its symptoms as our own true self We lovingly speak of this disease as our ego our sense of limited separate selfhood Jack Elias calls it egoic minding because it is a process not a thing Egoic minding is a fragmented biased way of perceiving and thinking It can be viewed as a sort of destructive hypnotic trance that causes us to experience each other as strangers as different as threats The delirium of this trance causes us to do violence to each other and to our world without ever recognizing that it our egoic thought process is the true enemy By synthesizing insights and techniques of Eastern and Western philosophy and psychology Finding True Magic explores various ways to disperse the feverish trance of egoic minding heal the trauma it causes and wake us up to the sacred magic of our true Self This true inner Self is the wellspring of our capacity for cooperation community building and the celebration of life Everyone has the right to the make use of the essential insights of healing communication without resorting to the long term expense of a professional intermediary Therapy should change simply because there is a more effective approach to healing and personal growth That approach the subject of this book relies on each person s inherent goodness a resource that is surprisingly easy to contact in the space between egoic thoughts

Richard Bandler's Guide to Trance-formation Richard Bandler,2010-01-01 This wonderful book is for anyone interested in making their life significantly better It is a goldmine of insights and techniques from one of the greatest geniuses of personal change As you use the techniques in this book you will exponentially increase your ability to make dramatic life enhancing differences It is by far one of the most entertaining and professionally stimulating books I have read It will change your life Paul McKenna Ph D author of I Can Make You Thin and host of The Learning Channel s I Can Make You More than thirty years ago Richard Bandler set out to discover how some therapists managed to effect startling change with their clients while others were arguing about theories as their face patients waited in vain for help Now widely regarded as the world s greatest hypnotist Richard Bandler observed and developed patterns which became the foundation of neuro linguistic programming NLP arguably one of the most profoundly effective approaches for self development and change Since coauthoring the internationally influential books The Structure of Magic Volume 1 and Patterns of the Hypnotic Techniques of Milton Erickson M D Volume 1 Bandler has traveled the world honing his skills and helping people solve problems and achieve goals when other experts have been unable to help Richard Bandler s Guide to TRANCE formation he returns to his roots hypnotic phenomena trancework and altered states to provide a highly compelling prescription for personal change According to Bandler trance is at the very foundation of human experience People are not simply in or out of trance but are moving from one trance to another They have their work trances their relationship trances their driving trances and their parenting trances Some of these states are useful and appropriate others are not With his signature wit and contrarian approach to therapy Bandler shows how anyone can reset or reprogram problem behaviors to desired alternatives with lasting and life altering results Peppered with case studies and more than thirty exercises Richard Bandler s Guide to TRANCE formation is an intriguing engaging and often amusing read for anyone whether they are new to NLP want to further their NLP training or simply want to make a positive difference in their own lives Sports Hypnosis in Practice Joseph Tramontana,2011-06-10 This book offers new strategies and scripts for hypnotherapists sports counsellors and sports psychologists working with athletes to help them achieve their peak performance A major focus of the book is that the

therapist does not necessarily need to be familiar with the sport or activity to serve as a mental coach to the athlete. The athlete is instructed that the goal is not to improve the mechanics of their performance that is left up to their coaches but rather to help them to relax, concentrate and focus so that they fulfill their maximum potential. They learn not to let the mental side of their game trip up the physical side but rather to enhance it.

Easy Guide to Mesmerism and Hypnotism
 Marco Paret, James Coates, 2007. This unique book is the new enlarged and complete version of the earlier Easy Guide to Mesmerism and Hypnotism with added text and notes. Dr Paret personally reviewed this new Edition as he applies with incredible success this ancient methodology into which he was personally initiated. Mesmerism is completely different from modern hypnosis. Mesmerism is the Western school corresponding to the use of Prana or Ki Chi in Orient. Parts of the teachings of this school were never completely disclosed in print. Dr Paret who is a genuine practitioner wrote a series of notes which allow a better understanding of practical applications of these techniques and their actualness. Many of the powerful results of Mesmerism are scarcely reachable if only pursued through verbal hypnosis. Dr Paret therefore accompanies you through your reading. You will not only find here the original text of Dr Coates but also a better understanding of the original school of magnetism. If you really want to immerse in this powerful world this is your occasion.

Changing with NLP
 Lewis Walker, 2004. For medical practitioners considering incorporating neuro linguistic programming into their practice a UK general practitioner NLP trainer introduces the theoretical basis, techniques and clinical applications of this behavioral change model that takes into account eye movements as neurological indicators. Dr Walker includes exercises, a sample chart for exploring subjective experience, the NLP meta model, eye accessing cues, useful questions to ask patients and tips on when to use them.

This guide will give you all the materials you need if you're starting from scratch as well as more advanced scripts and hypnotic techniques to progress further. You'll get a strong understanding of the history of hypnosis, the different styles, philosophies, methods and procedures that will open doors for you in your own practice.

Charles, the Alternative

King Edzard Ernst, 2023-04-27 King Charles has entertained a long standing love affair with alternative medicine This book describes his passion as it developed during the last 40 years The King s beliefs opinions and ambitions are critically assessed against the background of the scientific evidence In most instances the contrast could not be starker Thus Charles tenacious promotion of unproven disproven and occasionally harmful alternative therapies turns out to be little more than the pipe dream of a self declared enemy of the Enlightenment The book portrays our king reviews the evidence on alternative medicine and inspires critical thinking
