The magazine covers General Knowledge, Science and Technology news, Interviews of toppers of examinations, study material of Physics, Chemistry, Zoology and Botany with model papers, reasoning test questions, facts quiz, contest, general awareness and mental ability test in every monthly issue.

*The Right to Information Act 2005*: Sudhir Naib, 2011-01-24: The Indian state till recently denied information about its functioning and decision making to its citizens ironically using laws made during the

colonial period Apart from being an anomaly in a democratic set up it created an adverse impact on the quality of governance accountability and transparency It was only in 2005 after a prolonged freedom of information movement that this situation was finally rectified The government enacted the landmark Right to Information Act 2005 and gave to all its citizens the right to access information held by or under the control of public authorities This Handbook is meant to serve as a practical guide to the implementation of the Act The book begins by locating the Act in the context of a global movement for freedom of information FOI and discusses the efforts made by international bodies for adoption of FOI It also presents a detailed comparative study of FOI in five countries the US the UK Canada South Africa and India In subsequent chapters the book adopting a step by step approach discusses the provisions of the Right to Information Act how citizens should make use of the right to information the comprehensive guidelines for public authorities and their obligations under the Act which includes relevant central information commission decisions the role of the public information officers PIO who are to be appointed as per the provisions in the Act by all public authorities the exemptions allowed under the Act and finally the appellate authorities to whom a citizen can appeal in case of unsatisfactory response by the PIO

**International Anatomical Education** Iain D. Keenan, Isabel Stabile, Asha Venkatesh, 2025-08-10 Anatomy is intrinsically a three dimensional and visual discipline Anatomical education is therefore primarily delivered using physical and digital three dimensional visual approaches to support student understanding of anatomy including human body donor specimens and technology enhanced learning resources The Trans European Pedagogic Anatomy Research Group TEPARG was founded in 2003 to promote scholarly research informed and evidence based approaches to the design and implementation of anatomical education TEPARG brings together enthusiastic anatomy teachers and pedagogic researchers from across Europe and beyond to share good practice and create new projects in support of anatomical education The work presented in this volume demonstrates careful consideration by the authors of several key areas within the current complex landscape of international anatomical education This volume is presented in two subthemes with the first section concerning broad considerations of modern anatomy curricula in England Scotland Wales and Austria and the second section involving discussion of pedagogic innovations for the delivery of anatomical education to learners and to the wider public in Italy Spain Australia and the United Kingdom The work presented in this volume will have implications for anatomical educators and pedagogic researchers in the anatomical sciences who are seeking to develop their own anatomy curricula and to implement effective evidence based and research informed visualization strategies and innovations into their teaching
