OCONUS is a military term for deployment Outside the Continental United States Most often this means in a region that one would call enemy territory In such a place attack can be expected from any source at any time and soldiers are trained to anticipate such an event and prepare for it As Christians we find ourselves deployed by the Holy Spirit in a territory that we are very familiar with but to which we no longer belong What was our natural environment now seems to be hostile towards us Friends and even close relatives now seem to avoid us and we are under constant attack both behind our backs and to our faces Before we were saved the world may have seemed to be a pleasant place but something changes when we receive the Lord What has changed Certainly the world around us hasnt changed It must have something to do with our salvation Jesus made it clear to those who chose to follow Him that they should expect such a change He made it clear that we can only love the world or Him not both We might not have thought about loving the world but there was a certain allegiance to all the things we are familiar with When we are shipped overseas for a military operation we really miss the kind of life we enjoyed here We are attached to our home and we are glad that the deployment to hostile territory is just temporary But we believers have

another home promised to us by the same Lord we trusted in for our salvation So our deployment here in enemy territory is also temporary and we know in advance how it all ends

**Philosopher at the Admiralty** Peter Johnson, 2012-05-29 This book is volume one of a two part series volumes sold separately Taken together the two volumes of *A Philosopher at War* examine the political thought of the philosopher and archaeologist R G Collingwood against the background of the First and Second World Wars Collingwood served in Admiralty Intelligence during the First World War and although he was not physically robust enough to play an active role in the Second World War he was swift to condemn the policies of appeasement which he thought largely responsible for bringing it about The author uses a blend of political philosophy history and discussion of political policy to uncover what Collingwood says about the First World War the Peace Treaty which followed it and the crises which led to the Second World War in 1939 together with the response he mustered to it before his death in 1943 The aim is to reveal the kind of liberalism he valued and explain why he valued it By 1940 Collingwood came to see that a liberalism separated from Christianity would be unable to meet the combined evils of Fascism and Nazism How Collingwood arrived at this position and how viable he finally considered it is the story told in these volumes

*Customary International Humanitarian Law* Jean-Marie Henckaerts, Louise Doswald-Beck, 2005 In 1996 the International Committee of the Red Cross alongside a range of renowned experts embarked upon a major international study into current state practice in international humanitarian law in order to identify customary law in this area This book is the result of that study a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non international armed conflicts Given that important treaties in this area have not yet been universally ratified this is a publication of major importance carried out at the express request of the international community In so doing this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts

**The German War Code** James Wilford Garner, 1918

The Liberal Way of War Robert P. Barnidge, Jr, 2016-03-03 Examining some of the huge challenges that liberal States faced in the decade after 11 September 2001 the chapters in this book address three aspects of the impact of more than a decade of military action This book begins by considering four different expressions of universalist moral aspirations including the prohibition of torture and discusses migration and responsibility to protect as well as the United Nations Human Rights Committee's Concluding Observations about security and liberty in the last decade International humanitarian law and the problems posed by the territorial character of war and the effects of new technologies and child soldiers are also analysed Finally Islamic law and its interface with international law is considered from a new perspective and contributions in this final part offer a different way of thinking about an authentically Islamic modernisation that would be compatible with Western models of political order With

contributions from international lawyers from diverse backgrounds this book fills an important gap in the literature on the themes of international human rights law international humanitarian law and Islamic law      *War Publications and Reports of the War Committee of the University of Illinois, 1917-1919* University of Illinois (Urbana-Champaign campus). War committee,1923      **University of Illinois Bulletin** ,1917      **The Proceedings of the Hague Peace Conferences** Carnegie Endowment for International Peace. Division of International Law,1920      **Selected Topics Connected with the Laws of Warfare as of August 1, 1914** Joseph Richardson Baker,Louis Wagner McKernan,1919
