Essay Connection 10th Edition:

The Essay Connection Lynn Z. Bloom, 2011-11-21 THE ESSAY CONNECTION is a provocative timely collection of rhetorically arranged essays by professional and student writers. It stimulates critical thinking on ethical, social, and political issues, enabling users to make connections and write with an informed viewpoint. Essays range from the personal to the scientific and cover a variety of modes: narration, process, analysis, comparison, and contrast, and persuasion to prompt users' interest in different disciplines and genres. Professionally written essays by scientists, economists, and journalists, among others, as well as user essays, inspire and motivate readers. Unlike excerpts found in other readers, most essays are printed in their entirety, thus serving as better models for user writing. Throughout the text, Bloom offers practical, clear advice on writing that complements the essays. Rich visuals, fiction, poetry, and creative nonfiction provide a full set of models to bolster critical thinking, reading, and writing skills. The tenth edition offers 22 new selections to stimulate the reader's interest. An expanded argument casebook, as well as new visuals, poems, and works of creative nonfiction and fiction, build on the strengths of previous editions. New material on the Book Companion Website strengthens the reader's writing and reading comprehension skills.

Academic Writing for Military Personnel, revised edition Adam Chapnick, Craig Stone, 2023-05-16 *Academic Writing for Military Personnel* is a manual for writing clear and effective academic prose. Authored by an experienced writing instructor and a retired military officer, both of whom teach in a professional military education institution, it is designed for members of the armed forces who are entering or perhaps re-entering the academic community and having spent much of their careers either writing in the professional military context or not writing at all. The book not only teaches officers how to write convincingly but also explains why a sound grasp of academic writing can enhance their effectiveness in their regular duties, particularly as they reach the more senior levels of service. Chapters focus on the value of written communication skills, the difference between professional staff and academic writing, the research process, the writing process, academic professionalism, and common writing problems and challenges. A particularly innovative final chapter discusses how officers can use the knowledge that they have acquired through their professional experiences in the academic context. Specific examples, chosen with a military audience in mind, are integrated throughout the text to provide the reader with relevant and practical guidance. The revised edition incorporates new examples from a more diverse set of authors, takes into account recent changes in communication technologies, and reflects new advancements in the scholarship of teaching and learning. As the only comprehensive guide to effective academic writing designed specifically for military personnel, this book will be a crucial addition to the libraries of junior and senior officers in militaries worldwide. Available formats: trade paperback, accessible PDF, and accessible ePub.
