many other countries The World Education scene in general occupied a higher level of degree in research and publication than that of the Indian Education scene Research flourishes when research is brought to light through publication I always advocate sound growth in Indian Education This can be achieved if we improve journal publication This awareness has resulted in this book Therefore Journal Publishing is a Cultural Imperative This book is designed to help readers understand what a journal is the people who are responsible for the creation and production of this journal how a journal is published where a journal flourishes and why it is mandatory in education development I have taken materials from all over the world and all these sources have been acknowledged in the references but for them this book would not have been a reality
