Teaching and Advocacy Denny Taylor,Debbie Coughlin,Joanna Marasco,1997 What happens to children who live on the edge Children in families that are trying to make it somehow anyway they can children with disabilities who speak other languages who are told they are different and who know they don t fit What happens to adolescents who are kicked out of regular high school who end up under the control of the social welfare system who belong to gangs whose friends are killed by gunfire How can they articulate their own positions and needs What kinds of literacy do they require so that society will recognize them Who is their advocate Because literacy can be used to enable or disable those children marginalized by society must be literate to survive and teachers are often their only advocates But teachers often stand alone when they advocate For most teachers there are no guidelines available on teaching and advocacy and we rarely talk about the role that literacy plays in providing opportunities for teachers to work as advocates Exploring how literacy learning is enabled and disabled offers that opportunity The teacher researchers in this book use written texts to uncover the hidden assumptions that shape our perceptions about people s positions in society They focus on how language is done what we do with it how we define ourselves in print how students are defined often reinvented in obscure documents that control their lives Teaching and Advocacy encourages teachers to stand beside their students to expose the hidden assumptions in official documents to develop alternative explanations and above all to advocate Following each chapter Denny Taylor s interview with the author reveals a rare commitment to children and to advocacy and demonstrates the involvement implicit in qualitative research
