Froehlich,2018-04-09 Architecture and film have many things in common Film narratives are embedded in scenes that visually support the story Sometimes architecture even performs the role of an actor Conversely film with its multifaceted changing atmospheres reveals new layers of architecture which outside the cinema would remain concealed In conclusion film as a mass medium influences the way architecture is perceived and its image in society Since the beginning of cinema architecture has formed a symbiosis with film With its systematic analysis this book offers a scientifically researched history of mutual influence starting with filmography as a typology of well known film sets through to the description of the chameleon effect between film and architecture **The Edge of Evolution** Ronald Edwards,2016-02-17 In this

interdisciplinary work author Ron Edwards offers an innovative rereading of H G Wells The Island of Dr Moreau Edwards utilizes his twenty five years in biology and the ethics of animal research to examine the bioethical implications of Wells work and its relevance to contemporary scientific and philosophical discussions He tackles the myth of human exceptionalism the notion that we are fundamentally different from the rest of the animal kingdom We must view ourselves he argues not as from animals but as animals The approachable tone is suitable for a wide audience of the scientifically curious At the same time great care is given to providing an accurate and considered treatment of the technical aspects of the novel including the scientific plausibility of Dr Moreau s experiment Never before have Wells ideas been examined in such detail by an evolutionary biologist with the author s considerable experience The implications are far reaching touching on key topics in animal rights evolution and the relationship between religion and science Its approachability and dedication to technical accuracy produces a unique perspective on Wells classic Anyone with an interest in confronting some of the central issues of human existence through the lens of fiction will be rewarded with an original and thought provoking work *More Than*
