Making Math Accessible to English Language Learners (Grades 9-12) r4Educated Solutions, 2011-12-30 Making

Math Accessible for English Language Learners provides practical classroom tips and suggestions to strengthen the quality of classroom instruction for teachers of mathematics. The tips and suggestions are based on research in practices and strategies that address the affective linguistic and cognitive needs of English language learners. Although this resource centers on teaching English language learners, many of the tips and suggestions benefit all students. Making Math Accessible for English Language Learners follows five case studies of composite student profiles throughout the book with opportunities for reflection to increase personal awareness of both the teacher's role and students' needs in the mathematics classroom. Tasks to provide interaction with the content of the book and hot tips for ideas applicable to real world classroom situations.

**Educational Accountability and American Federalism** John Portz, 2023-03-10. This book offers important insights into the complex nature of educational accountability and its role in supporting school improvement. By developing two key concepts, educational accountability and American federalism, the book highlights various types of accountability that take place in different institutional settings. By moving beyond the long-standing test-based administrative approach to accountability, the author demonstrates how professional market and political accountability affect teaching, learning, and educational policymaking. The book examines four accountability types: administrative accountability, professional accountability, market accountability, and political accountability. The volume questions why these accountability types vary in their development and use across the country and considers how American federalism, national state, and local provides different political arenas with variation in ideas, interests, and institutions that prompt different policymaking approaches. The book concludes with a two-tier proposal for internal accountability organized around teacher professionalism and external accountability combining elements of school choice and public deliberation. This volume will be important reading for scholars and researchers in Federalism, Education Policy, and Public Administration. It will also be beneficial reading for policymakers, think tanks, and community organizations.

*Mentoring Partnerships* Tara Mason, 2024-06-25. Special education across education programs nationwide is an incredibly high-need teacher shortage area, and mentoring can make a profound difference in teacher retention and effectiveness. Within this handbook, mentoring partnerships will be guided through the first year of a new special education teacher from start to finish. A month-to-month resource for both mentors and mentees, this resource focuses on self-reflection cycles of growth and goal setting, including self-care strategies. Additionally, the handbook focuses on evidence-based practices in special education, tying resources to the High Leverage Teaching Practices Council for Exceptional Children, providing templates to be adapted to local school districts for K-12 special education program use. The framework of this handbook is to provide evidence-based practices to promote inclusive special education programs where all K-12 students have equity access and achievement. New and experienced special education teachers will learn how to effectively promote and integrate inclusive special education programs, emphasizing that special education is not a place but instead a service comprised of intensive support, collaboration, and accessibility.
