

## Environmental Science Chapter Test 2

Choose the letter of the term or phrase that best matches the description.

- |  |                         |
|--|-------------------------|
| 1. testable explanation for an observation   | a. Conceptual Model     |
| 2. information gathered during an experiment   | b. Quantitative         |
| 3. list of steps for testing a hypothesis through an experiment  | c. Probability          |
| 4. data that includes no measurements, height, weight, etc.  | d. Correlation Method   |
| 5. an explanation for how a system works or how something is organized, sometimes contains arrows                      | e. Data                 |
| 6. data that does NOT include numbers- instead include colors, textures, sounds, etc.                                  | ed. Experimental Method |
| 7. determining if there is a linear dependence between variables because conducting experiment impossible or unethical | ec. Qualitative         |
| 8. chance of an event happening in the future  | od. Hypothesis          |

**Use this experiment to answer questions 9-12.**

I want to know if my dogs will eat faster if I add carrots or apples to my dog's kibble. I think that if I add apples to their kibbles, the dogs will eat the food the quickest. I will feed them 2 cups of food twice every day, for three months. I will also feed them in the same bowls, in the same location, and at the same time every day. One month I will feed them just kibble with nothing added into it, the next month I will feed them kibble and carrots, and the third month I will feed them kibble and apples. No matter what I add to the kibbles, the total amount of food will still be 2 cups. I will measure how fast they are eating their food to determine if putting carrots or apples in their food makes them eat faster.

9. What is the dependent variable?
- The different types of food
  - The food with just kibble
  - The time it takes them to eat their food
  - The amount of food they are receiving every day
10. What is the independent variable?
- The different types of food
  - The food with just kibble
  - The time it takes them to eat their food
  - The amount of food they are receiving every day
11. What is the control?
- The different types of food
  - The food with just kibble
  - The time it takes them to eat their food
  - The amount of food they are receiving every day
12. Which is not a constant?
- The time it takes them to eat the food
  - The location where they are eating
  - The time of day they eat
  - The amount of food
