- Replacing the disposable water filter with a new filter will automatically reset the filter status tracking feature. See "Using the Controls."

#### NOTES:

3. Install the replacement water filter by following steps 2 through 5 in the "Install the Water Filter" section.

## ICE MAKER USE

### How Your Ice Maker Works

When you first start your ice maker, the water pan will fill and the system will rinse itself before starting to make ice. The rinsing process takes about 5 minutes.

Under normal operating conditions, the ice maker will cycle at preset temperatures. The ice level sensor located in the ice storage bin will monitor the ice levels.

**IMPORTANT:** If the water supply to the ice maker is turned off, be sure to set the ice maker control to OFF.

### The Ice Making Process

1. Water is constantly circulated over a freezing plate. As the water freezes into ice, the minerals in the water are rejected. This produces a sheet of ice with a low mineral content.
