Preaching Spanish Nationalism across the Hispanic Atlantic, 1759-1823 Scott Eastman, 2012-01-16 In this debut work Scott Eastman tackles the complex issue of nationalism in the eighteenth and nineteenth century Spanish Atlantic empire *Preaching Spanish Nationalism across the Hispanic Atlantic* challenges the idea that nationalism arose from the ashes of confessional society Rather the tenets of Roman Catholicism and the ideals of Enlightenment worked together to lay the basis for a mixed modernity within the territories of the Spanish monarchy Drawing on sermons catechisms political pamphlets and newspapers Eastman demonstrates how religion and tradition cohered within burgeoning nationalist discourses in both Spain and Mexico And though the inclusive notion of Spanish nationalism faded as the revolutions in the Hispanic Atlantic world established new loyalty to postcolonial states the religious imagery and rhetoric that had served to define Spanish identity survived and resurfaced throughout the course of the long nineteenth century *Preaching Spanish Nationalism across the Hispanic Atlantic* skillfully debates the prevailing view that the monolithic Catholic Church as the symbol of the ancien r gime subverted a secular progression toward nationalism and modernity Eastman deftly contends that the common political and religious culture of the Spanish Atlantic empire ultimately transformed its subjects into citizens of the Hispanic Atlantic world

Manual of Standardization in the Romance Languages Franz Lebsanft, Felix Tacke, 2020-01-20. Language standardization is an ongoing process based on the notions of linguistic correctness and models. This manual contains thirty-six chapters that deal with the theories of linguistic norms and give a comprehensive up-to-date description and analysis of the standardization processes in the Romance languages. The first section presents the essential approaches to the concept of linguistic norm ranging from antiquity to the present and includes individual chapters on the notion of linguistic norms and correctness in classical grammar and rhetoric in the Prague School in the linguistic theory of Eugenio Coseriu in sociolinguistics as well as in pragmatics, cognitive and discourse linguistics. The second section focuses on the application of these notions with respect to the Romance languages. It examines in detail the normative grammar and the normative dictionary as the reference tools for language codification and modernization of those languages that have a long and well-established written tradition: i.e. Romanian, Italian, French, Catalan, Spanish and Portuguese. Furthermore, the volume offers a discussion of the key issues regarding the standardization of the minor Romance languages as well as Creoles.
