additional rigorous investigation In summary Weitz and Wensley should be congratulated for the excellent work in developing Handbook of Marketing The book fills a major void in the marketing literature on marketing management and will serve the discipline for many years to come Journal of Marketing Research This text achieves the rare goal of covering marketing clearly and deeply with no unnecessary examples or pretty pictures For the enquiring mind it is a wonderful link between a basic knowledge of marketing concepts and a grasp of where research in marketing is taking us Ken Simmonds Emeritus Professor of Marketing and International Business London Business School The Handbook of Marketing presents a major retrospective and prospective overview of the field of marketing and provides a landmark reference at a time when many of the traditional boundaries and domains within the marketing discipline have been subject to change A high calibre collection compiled by an international and extremely distinguished advisory board of marketing academics With contributions from leading scholars in the field each covering the latest research issues in particular areas of expertise Each chapter provides the necessary background for study and research of specific empirical and theoretical topics in marketing The Handbook of Marketing will be invaluable to advanced undergraduates graduate students and academics in marketing International Advisory Board Sonke Albers Christian Albrechts University of Kiel Germany Erin Anderson INSEAD France Rick Bagozzi Rice University USA Patrick Barwise London Business School Rod Brodie University of Auckland Anne T Coughlan Northwestern University George Day University of Pennsylvania Lars Gunnar Mattsson Stockholm School of Economics Hubert Gatignon INSEAD France H kan H kansson The Norwegian School of Management Stephen J Hoch University of Pennsylvania USA Kevin Keller Dartmouth College USA Donald Lehmann Columbia University USA Gilles Laurent HEC France Leonard Lodish University of Pennsylvania Richard Lutz University of Florida David Midgley INSEAD France David Montgomery Stanford University USA William Perreault University of North Carolina USA John Roberts Stanford University USA Allan Shocker University of Minnesota Piet Vanden Abeele Vlerick Leuven Gent Management School Belgium Russell Winer University of California Berkeley USA Dick Wittink Yale School of Management USA **MKTG12** Charles W. Marketing the Public Sector Seymour H. Fine, 2017-07-12 The administrative officers of public and nonprofit organizations have become increasingly interested in marketing techniques during the 1990s They reason that if commercial marketing methods can successfully move merchandise across the retail counter those same techniques should be capable of creating a demand for such social products as energy conservation women's rights military enlistment or day care centers The goal of this volume is to provide social sector executives with practical and effective guidelines on how to harness the power of marketing in order to improve service to their constituencies Marketing the Public Sector builds upon two decades of research in social marketing and represents the current state of the art The authors demonstrate how the principles developed in earlier studies can be applied in actual situations Included here are case studies of marketing plans prepared for hospitals political campaigns Third World social change and community foundations that proved to be as effective as those in the private sector The case study approach is effectively supplemented by theoretical chapters that define first principles in essential matters such as product management value determination advertising and analysis of market performance This amalgamation of theory and application is suitable to middle range social marketing sizes as well as full scale projects that large agencies might undertake The problems differ only in magnitude no organization is too small or too large to adopt a consumer orientation Marketing the Public Sector is not only a guide to marketing it is also about communication social change propaganda and education It will be of great interest to sociologists public sector administrators and specialists in communications public relations fund raising and community affairs
