**Elements of Gaelic Grammar** Alexander Stewart,2012 This book is part of the TREDITION CLASSICS series The creators of this series are united by passion for literature and driven by the intention of making all public domain books available in printed format again worldwide At tredition we believe that a great book never goes out of style Several mostly non profit literature projects provide content to tredition To support their good work tredition donates a portion of the proceeds from each sold copy As a reader of a TREDITION CLASSICS book you support our mission to save many of the amazing works of world literature from oblivion      **Elements of Gaelic Grammar** Alexander Stewart,2016-06-23 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

facilitate its introduction and prompt the natives to its acquisition They will perceive at the same time that while the Gaelic continues to be the common speech of multitudes while the knowledge of many important facts of many necessary arts of morals of religion and of the laws of the land can be conveyed to them only by means of this language it must be of material service to preserve it in such a state of cultivation and purity as that it may be fully adequate to these valuable ends in a word that while it is a living language it may answer the purpose of a living language We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
