Why Trade Contractors Fail and How to Prevent It Jim McCain,2011-06 The Book Thousands of Trade Contractors Will Want by Their Sides Trade contractors excel at mastery of their specific crafts The plumber the electrician the carpet installer the home builder all these and the many other contractors and subcontractors servicing America s homes and businesses know the technical aspects of their craft inside out But their knowledge of business systems often lags Too many of them fail when it comes to understanding how to manage cash use telemarketing techniques to get new business minimize their inventories and the dozens of other business techniques that spell the difference between success and failure The Business Doctor s book Why Trade Contractors Fail and How to Prevent It subtitled A Handbook of Financial Operations and Marketing Procedures to Help Trade Contractors Succeed addresses those issues It attacks specific problems that contractors face Most books addressing this market are too academic and excessively focused on theory This one is hands on practical the way blue collar contractors understand it and like it

Moving Past PTSD Jaime B. Parent,2019-07-24 From World War I until today the United States has failed to provide adequate transition support to millions of veterans leaving military service Instead of providing meaningful jobs access to quality health care and education and fair and equitable housing veterans learn that when their military service is done they are now fighting a new battle a failed bureaucracy which has let them and other veterans down for the past 100 years It s not as if we as a nation haven t tried The Veterans Health Administration VHA has seen the largest increase in funding in its history and has been given several free passes when the budget axe arrives Federal funding and grants for education have also enjoyed similar financial favor and housing opportunities have been increased Yet on a rudimentary level we as a nation cannot stop believing that GI Joe and Jane can t wait to come back home and pick up right where they left off before their military service began The truth is that person is gone and is not coming back After months or years in a highly structured organizational environment often times with deployments and horrific battlefield experiences the military veteran has undergone a paradigm shift in their thinking their character and in the way they view themselves and others Advances in medical triage and transport have saved thousands of men and women who in previous wars who would have died on the battlefield and new prosthetics and treatment strategies for those with invisible wounds have helped many But an overburdened VHA isn t prepared to provide for the sheer volumes of veterans that return home And with veteran unemployment rates traditionally running percentage points higher than their civilian counterparts America still wonders why Many veterans particularly those with PTSD are lost when returning home Moving Past PTSD Consciousness Understanding and Appreciation for Military Veterans and Their Families hopes to break this cycle In their own words veterans caregivers and the family members that love them are given the opportunity to tell us what is truly broken in the military to civilian transition Advances in clinical treatments the presentation of a new fast track job training

program and new awareness for the challenges facing all military veterans changes our way of understanding of who the 21st century veteran is Through this understanding we can change their lives and they can change ours
