The Earth Mysteries Workbook John Michael Greer, 2024-09-24 A practical and investigative workbook to explore the timeless enigmas of the land on which we walk The Earth Mysteries Workbook invites readers to embark on a journey to understand and restore the ancient enchantments of the land as well as continuing to train the minds and spirits of those engaged in magical study The book follows forty eight lessons which span the course of one year It is not intended to be read cover to cover instead readers should take a lesson a week each of which provides material for thought study and meditation Each week is divided into seven numbered paragraphs to be used as themes for the week's daily meditation The lessons include an introduction to the earth mysteries and natural philosophy exploration of different sites across the earth myths and legends phenomena and much more This fourth instalment of John Michael Greer's instructional workbook for members of the Golden Section Fellowship presents the scholarship of earth mysteries as a fundamental discipline of occult studies and as a spiritual discipline Greer situates the mysteries of the land as intrinsically linked to occult studies as they challenge the modern paradigm which ignores and belittles the sacred knowledges of ancient times sharing a belief in the importance of the past in understanding the subtle and spiritual dimensions of the earth This book can be read as an accompaniment to Greer's previous titles *The Way of the Golden Section* *The Occult Philosophy Workbook* and *The Way of the Four Elements*

Encounters with the Holy Barbara Day Miller, 2010-06-14 Many churches have active worship committees or planning teams and an abundance of books and resources guide pastors and laity *Encounters with the Holy* offers a conversational model of worship planning that was developed to train practitioners to be more reflective in their planning of worship experiences The model planning ordering worshipping reflecting is a flexible fluid pattern It provides a more circular spiraling practice of imaginative planning preparing the leaders and the space and reflecting theologically to understand more fully the experience of worship It has been tested in congregations seminaries and campus ministries amid a wide range of denominational and cultural styles An underlying theological assumption of this approach is that we are engaged in holy work when we plan and prepare for worship Leaders study preparation and training are themselves an encounter with the Holy Therefore we are called to become more informed and better prepared liturgical leaders The language and encouraging style of the book is accessible to student pastors pastors and lay people interested in learning to think more deeply about worship
