indent 1/2" →

Personal anecdote creates interest and shows writer's purpose and connection to the topic. The public issue or thesis is clarified in second paragraph.

As a doctor's daughter I learned early how conventional medicine works. In my own home the topic of illness never came up except if one of us contracted strep throat, flu, or the occasional childhood disease such as mumps. We knew the procedure from that point—a look at our throat, the quick touch on our foreheads to determine whether we had a fever, and then the dreaded shot or pill. After that we spent a couple of days on the couch watching TV until we were no longer contagious. It is no longer good enough for many of us to wait until we get sick to obtain the healing pill or surgical procedure. We don't feel as comfortable in the submissive role as patient receiving orders from an all-knowing physician. The time has come for conventional practitioners to include alternative therapies in their treatment plans, because alternative medicine addresses the public's desire for holistic care, prevention, and guidance in how to establish a healthy

First time an author is mentioned, give first and last name and some additional identifying information.
