

TC840A OMNI Multi-element Sensor

SPECIFICATION DATA

DESCRIPTION

The TC840A OMNI Sensor is a microprocessor based smoke detector which uses a combination of ionization, photoelectric and temperature sensing technologies within a single housing. The OMNI Sensor utilizes advanced algorithms with time based analysis to provide early warning and an accurate analysis of alarm situations. These state-of-the-art algorithms also provide a high immunity to nuisance alarms. Five sensitivity settings are available to cover a broad range of applications.

The OMNI Sensor continuously monitors its sensitivity to smoke and compensates for certain contamination factors. The TC840A, like the other TC800 Series sensors and modules, incorporates two rotary direct-dial decade address switches. The exact address of each sensor can facilitate swift response to a specific fire situation, or allow for selective maintenance when required. Two bi-coloured LEDs provide 360° visibility and will flash green in stand-by and glow steady red for alarm.

The OMNI Multi-element sensor and other TC800 Series single element sensors and input/output modules are compatible with Honeywell's DeltaNet FS90, FS45/M1000 and XLS200/1000 Life Safety Systems.

FEATURES

- Sleek, low profile design
- Microprocessor based technology
- Advanced fire detection and discrimination algorithms
- Mechanically integrated photoelectric and ionization shared volume smoke chamber
- Digital pulse-width encoded communications with noise immunity
- Compatible with FS90 Plus, FS45/M1000 and XLS200/1000 Life Safety Systems
- Rotary decade switches for easy address entry
- Optional tamper resistant mounting
- Dual LEDs provide 360° viewing
- Local test feature
- Conforms to EN54 Part 7

The built-in intelligence in the OMNI Sensor enables the sensor to process the data from the individual sensing elements before transmission of the information to fire alarm panel, therefore greatly improving the response time.

The OMNI Sensor heads are sealed to prevent entry of dust and dirt. In addition the sensors have an insect-resistant screen (0.6 mm [0.025 in] openings) to reduce nuisance alarms.

Several different mounting bases are available for the TC840A to accommodate various configurations. If using the mounting base with integral horn, a local audible alarm occurs automatically whenever the sensor is in alarm.

The OMNI Sensor is ideal for:

- Where there is a probability of both flaming and smoldering fires
- Environments prone to nuisance alarms
- Environments with high humidity and rapid changes in temperature
- Where there is a high risk to life and/or property
