Critical Race Theory and the American Justice System Paul Zwier, 2023-02-27 When a trial lawyer stands before a jury to argue a case about a Black victim killed by a white person how should the lawyer best argue the case Critical race theorists CRTs are pessimistic that a white jury can set aside its own racism in judging the Black victim's actions and are skeptical of a jury's ability to fairly judge a white actor's motives Before the George Floyd and Ahmaud Arbery killings there was strong evidence The Innocence Project that the CRTs were right After all the prosecutors in the Ahmaud Arbery case were so convinced that a white jury in a Georgia county would not convict white vigilantes that they initially didn't even charge the killers with a crime However then back to back in both cases prosecutors prosecuted and the jury returned guilty verdicts They convicted Derrick Chauvin of murder They convicted Travis and Gregory McMichael and Roddie William Bryant of murder This book examines the how and why of these verdicts and asks whether they hold lessons vital to withstanding CRT challenges to the American justice system

**Balancing Constitutional Rights** Jacco Bomhoff, 2013-12-19 The language of balancing is pervasive in constitutional rights jurisprudence around the world In this book Jacco Bomhoff offers a comparative and historical account of the origins and meanings of this talismanic form of language and of the legal discourse to which it is central Contemporary discussion has tended to see the increasing use of balancing as the manifestation of a globalization of constitutional law This book is the first to argue that balancing has always meant radically different things in different settings Bomhoff uses detailed case studies of early post war US and German constitutional jurisprudence to show that the same unique language expresses both biting scepticism and profound faith in law and adjudication and both deep pessimism and high aspirations for constitutional rights An understanding of these

radically different meanings is essential for any evaluation of the work of constitutional courts today      Tomorrow's Professor Richard M. **Dark Beyond Darkness** James G. Blight,janet M. Lang,2017-12-22 In Dark Beyond Darkness James Blight and Janet Lang among the world's foremost authorities on the Cuban missile crisis synthesize the findings from their thirty year project on the most dangerous moment in recorded history Authoritative accessible and written with their usual flair and wit DBD is the first book to take readers deeply inside the experience and calculations of Fidel Castro who was willing to martyr Cuba if his new Russian ally would nuke the U S and destroy it Blight and Lang have established that in October 1962 the world was on the brink of Armageddon and that we escaped by luck Their history is scary but unimpeachably accurate we just barely escaped the cold and the dark in October 1962 Their history also comes with a warning we are currently at risk not only of Armageddon fast in a war between superpowers but Armageddon in Slow Motion the result a climate catastrophe following a regional nuclear war and from Armageddon Oops a conflict sparked by an accident which is misinterpreted and ends in nuclear war Drawing on the insights of poets musicians and novelists as well as climate scientists and agronomists they show the terrible risk we run by refusing to abolish nuclear weapons

**Blind over Cuba** David M. Barrett,Max Holland,2012-09-01 In the aftermath of the Cuban Missile Crisis questions persisted about how the potential cataclysm had been allowed to develop A subsequent congressional investigation focused on what came to be known as the photo gap five weeks during which intelligence gathering flights over Cuba had been attenuated In Blind over Cuba David M Barrett and Max Holland challenge the popular perception of the Kennedy administration's handling of the Soviet Union's surreptitious deployment of missiles in the Western Hemisphere Rather than epitomizing it as a masterpiece of crisis management by policy makers and the administration Barrett and Holland make the case that the affair was in fact a close call stemming directly from decisions made in a climate of deep distrust between key administration officials and the intelligence community Because of White House and State Department fears of another U 2 incident the infamous 1960 Soviet downing of an American U 2 spy plane the CIA was not permitted to send surveillance aircraft on prolonged flights over Cuban airspace for many weeks from late August through early October Events proved that this was precisely the time when the Soviets were secretly deploying missiles in Cuba When Director of Central Intelligence John McCone forcefully pointed out that this decision had led to a dangerous void in intelligence collection the president authorized one U 2 flight directly over western Cuba thereby averting disaster as the surveillance detected the Soviet missiles shortly before they became operational The Kennedy administration recognized that their failure to gather intelligence was politically explosive and their subsequent efforts to influence the perception of events form the focus for this

study Using recently declassified documents secondary materials and interviews with several key participants Barrett and Holland weave a story of intra agency conflict suspicion and discord that undermined intelligence gathering adversely affected internal postmortems conducted after the crisis peaked and resulted in keeping Congress and the public in the dark about what really happened Fifty years after the crisis that brought the superpowers to the brink Blind over Cuba The Photo Gap and the Missile Crisis offers a new chapter in our understanding of that pivotal event the tensions inside the US government during the cold war and the obstacles Congress faces when conducting an investigation of the executive branch
