Rolls Royce Merlin engine that the aircraft's true excellence became apparent. Possessing a greater combat radius than any other Allied single engine fighter, it became synonymous with the Allied victory in the air. During the last eighteen months of the war in Europe, escorting bomber formations, it hounded the Luftwaffe to destruction in the very heart of Germany. In the Pacific, operating from advance bases, it ranged over the Japanese Home Islands, joining carrier-borne fighters such as the Grumman Hellcat to bring the Allies massive air superiority. Yet the Mustang came about almost by accident, a product of the Royal Air Force's urgent need for new combat aircraft in the dark days of 1940 when Britain, fighting for survival, turned to the United States for help in the island nation's darkest hour.
