Bradshaw's continental [afterw.] monthly continental railway, steam navigation & conveyance guide. June 1847 - July/Oct. 1939 George Bradshaw, 1859 *Health and Development*

International Monetary Fund, 2004-11-23 The past century has been marked by rapid advances in human welfare. People in most parts of the world are healthier and are living longer. While this trend is likely to continue, hopes are fading in some regions where progress slowed or stopped in the 1990s primarily as a result of the AIDS epidemic. This compilation of articles published over the past five years in the pages of *F D* looks at the important links between health and economic progress. Articles range over a variety of topics from the Millennium Development Goals and their health-related targets for 2015 to the economics of tobacco control. Several articles examine the impact of AIDS and the global reaction while others look at debt and the intellectual property aspects of health care

Vacationing in Dictatorships Adelina Stefan, 2024-12-15 Vacationing in Dictatorships examines the political effects of international tourism in socialist Romania and Francoist Spain in the postwar era. Despite sharp economic and political differences between the two dictatorial regimes at the start of the Cold War, significant similarities existed as both states took advantage of international tourism to improve their image abroad and pursued processes of economic modernization to acquire hard currencies. By the end of the 1970s, though the two countries achieved rather different results in terms of tourism development despite the fact that both shared many features in the 1940s and 1950s. By comparing the rise and evolution of international tourism on different sides of the Iron Curtain, Adelina Stefan provides a different assessment of the geopolitics of postwar Europe that further refines the Cold War's geographies separating Eastern and Western Europe. As a result, Vacationing in Dictatorships reveals a new perspective on the Cold War that reveals not only the developmental similarities between Eastern and Southern Europe but also the ideological struggle that pitted socialist East against capitalist West

A Reference Guide for English Studies Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students, teachers, and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature. Within each of 24 major sections, Marcuse lists and annotates bibliographies, guides, reviews of research, encyclopedias, dictionaries, journals, and reference histories. The annotations and various indexes are models of clarity and usefulness, and cross references are liberally supplied where appropriate. Although cost-conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L. Harner's *Literary Research Guide* (Modern Language Assn of America, 1989), larger academic libraries will want Marcuse's volume. Investor-State Disputes Esmé Shirlow, Kiran Nasir Gore, 2022-08-25 The Vienna Convention on the Law of Treaties VCLT as the treaty on treaties has achieved a rich and nuanced track record of use in international law. It has now been over fifty years since the VCLT was opened for signature in 1969 and over forty years since it entered into force in 1980. As of 2022 the VCLT has been ratified by 116 States and signed by 45 others with some non-ratifying States also recognising parts as reflective of customary international law. In the intervening decades the VCLT has had a profound influence on the interpretation, application and development of international investment law including in the context of investment treaty arbitration. This book presents the first consolidated analysis of how the VCLT has informed the practice of international investment law and the resolution of investor-State disputes and the role that the VCLT may play in shaping the future of this field. The diverse contributors to this book are scholars and practitioners from around the world who offer a variety of perspectives on the nexus between the VCLT, international investment law and investor-State dispute settlement (ISDS). Each chapter demonstrates how approaches to key issues of treaty law in investment treaty arbitration diverge or converge from the VCLT and approaches of other international courts as well as the lessons that investment treaty arbitration could derive or even offer for the interpretation and application of the VCLT rules in other settings. Their insights and analyses consider aspects such as the role of the VCLT for interpretation of more specific approaches to treaty law drafted by treaty negotiators; treaty application in circumstances of contested State territory or succession; challenges temporal challenges arising in treaty interpretation; the status of bilateral investment treaties between European Union Member States and related termination endeavours; questions concerning the validity, termination and amendment of investment treaties including as part of ongoing ISDS reform processes; current multilateral reform proposals including the possibility of an appellate mechanism or a multilateral investment court; grappling with the challenge of fragmentation in international investment law including the role of prior decisions in treaty interpretation; the challenges introduced by treaty conflict and the multitude of approaches that may be taken by national courts when implementing treaties like the New York Convention; and treaty interpretation and drafting as aided by emerging technologies such as data analytics, machine learning, smart contracts and blockchain. The book's appendix provides a highly valuable tabular summary of ISDS arbitral practice relating to the VCLT, collating key references from over 350 different procedural orders, decisions and awards. By revisiting the role that the VCLT has played in the development of this field of law, this invaluable book unlocks insights into how the VCLT might be used to support its ongoing development and the resolution of the next generation of investor-State disputes. This book is essential reading for a variety of stakeholders including arbitrators, counsel, scholars and government officials who will benefit from its in-depth and practical analysis of the VCLT's relevance to and impact on investment law and investor-State arbitration and its role in

shaping where this field of public international law might be headed in the decades to come
