Our take: make waste economy have cost consumers and taxpayers billions while cheating us out of a habitable planet. But it doesn't have to be this way. *The Waste-Free World* makes a persuasive, forward-looking case for a circular economic model: a closed-loop system that wastes no natural resources. Entrepreneur, CEO, and sustainability expert Ron Gonen argues that circularity is not only crucial for the planet but holds immense business opportunity. Product Stewardship in Action Helen Lewis, 2017-09-08 *Product Stewardship in Action* describes how and why leading companies are taking responsibility for the environmental impact of their products and packaging. Product stewardship, often referred to as extended producer responsibility or EPR, is the idea that everyone that benefits commercially from a product, including manufacturers, distributors, and retailers, has a shared responsibility to minimize its

environmental impacts Written primarily for a business audience it draws on the knowledge and experience of industry practitioners and other experts to provide a structured approach to product responsibility within firms This will help those new to the field as well as more experienced practitioners to develop an effective response to stakeholder concerns about the environmental impacts of their products and packaging Unlike other resources on product stewardship and EPR which tend to focus on the design or evaluation of public policy this book highlights the business case for action It argues that companies can achieve shared value both public and commercial value when they take a proactive and knowledge based approach to the life cycle management of their products Product Stewardship in Action focuses on product stewardship as an effective business strategy rather than a philanthropic exercise To be effective it needs to be based on a good understanding of product impacts and stakeholder concerns and the risks and opportunities that these present to the business The most effective responses will be those that address material issues in the product life cycle while supporting the achievement of other corporate goals and priorities **Cincinnati Magazine** ,2000-01 Cincinnati Magazine taps into the DNA of the city exploring shopping dining living and culture and giving readers a ringside seat on the issues shaping the region
