The Supreme Court and McCarthy-Era Repression Robert M. Lichtman, 2012-08-15 In this volume attorney Robert M Lichtman provides a comprehensive history of the U S Supreme Court s decisions in Communist cases during the McCarthy era Lichtman shows the Court s vulnerability to public criticism and attacks by the elected branches during periods of political repression The book describes every Communist related decision of the era none is omitted placing them in the context of political events and revealing the range and intrusiveness of McCarthy era repression In Fred Vinson s term as chief justice 1946-53 the Court largely rubber stamped government action against accused Communists and subversives After Earl Warren replaced Vinson as chief justice in 1953 however the Court began to rule against the government in Communist cases choosing the narrowest of grounds but nonetheless outraging public opinion and provoking fierce attacks from the press and Congress Legislation to curb the Court flooded Congress and seemed certain to be enacted The Court s situation was aggravated by its 1954 school desegregation decision *Brown v Board of Education* which led to an anti Court alliance between southern Democrats and anti Communists in both parties Although Lyndon Johnson s remarkable talents as Senate majority leader saved the Court from highly punitive legislation the attacks caused the Court to retreat with Felix Frankfurter leading a five justice majority that decided major constitutional issues for the government and effectively nullified earlier decisions Only after August 1962 when Frankfurter retired and was replaced by Arthur Goldberg did the Court again begin to vindicate individual rights in Communist cases its

McCarthy era was over Demonstrating keen insight into the Supreme Court s inner workings and making extensive use of the justices papers Lichtman examines the dynamics of the Court s changes in direction and the relationships and rivalries among its justices including such towering figures as Hugo Black Felix Frankfurter Earl Warren William O Douglas and William J Brennan Jr The Supreme Court and McCarthy Era Repression One Hundred Decisions tells the entire story of the Supreme Court during this unfortunate period of twentieth century American history     The Economy of Nature Robert E. Myers,2008-10-01 DIVFor Americans entering the twenty first century it is the best of times and the worst of times Material wealth is at record levels yet disturbing social problems reflect a deep spiritual poverty In this compelling book well known social psychologist David G Myers asks how this paradox has come to be and more important how we can spark social renewal and dream a new American dream Myers explores the research on social ills from the 1960s through the 1990s and concludes that the materialism and radical individualism of this period have cost us dearly imperiling our children corroding general civility and diminishing our happiness However in the voices of public figures and ordinary citizens he now hears a spirit of optimism The national dialogue is shifting away from the expansion of personal rights and toward enhancement of communal civility away from efforts to raise self esteem and toward attempts to arouse social responsibility away from whose values and toward our values Myers analyzes in detail the research on educational and other programs that deal with social problems explaining which seem to work and why He then offers positive and well reasoned advice suggesting that a renewed social ecology for America will rest on policies that balance me thinking with we thinking div
