Gender In Communication A Critical Introduction:

Gender in Communication Catherine Helen Palczewski, Victoria Pruin DeFrancisco, Danielle D. McGeough, 2018-01-08

Gender in Communication A Critical Introduction embraces the full range of diverse gender identities and expressions to explore how gender influences communication as well as how communication shapes our concepts of gender for the individual and for society. This comprehensive gender communication book is the first to extensively address the roles of religion, the gendered body, single sex education, an institutional analysis of gender construction, social construction theory, and more. Throughout the book, readers are equipped with critical analysis tools they can use to form their own conclusions about the ever-changing processes of gender in communication. New to the Third Edition: Current examples in the chapter openers illustrate how a critical gendered lens is necessary and useful by discussing recent events such as Jon Stewart's critique of the outcry over a J Crew ad, reactions to Serena Williams's body photos of a young boy who likes to wear dresses, and the use of Photoshop to create thigh gaps. Updated chapters on voices, work, education, and family reflect major shifts in the state of knowledge. Expanded sections on trans and gender nonconforming reflect changes in language. All other chapters have been updated with new examples, new concepts, and new research. More than 500 new sources have been integrated throughout, and new sections on debates over bathroom bills, intensive mothering, humor, swearing, and Title IX have been added. His and her pronouns have been replaced with they in most cases, even if the reference is singular, in an effort to be more inclusive.

Gender in Communication A Critical Introduction Second Edition examines the variety of ways in which communication of and about gender enables and constrains people's identities. Authors Catherine Helen Palczewski and Victoria Pruin DeFrancisco, with Danielle D. McGeough, demonstrate how communication constitutes gender rather than presenting gender as an influence on communication. Operating from an intersectional gender diversity perspective, they show how a focus on gender/sex alone omits the richness of diverse gendered lives. In addition, they explore how gender is constructed through interpersonal and

Gender, Communications,

and Reproductive Health in International Development Carolina Matos, 2023-06-15 To this day women globally are subjected to forms of control over their bodies and their ability to exercise their reproductive rights in particular is still constrained. Amid a rise of challenges to the advancement of women's rights including the recent overturning of *Roe v Wade* in the United States, sexual and reproductive health rights are at the forefront of conversations about the advancement of gender equality. To determine how communications are used strategically to shape policy, Carolina Matos explores fifty-two feminist and health NGOs from across the world and how they are improving discourse on sexuality and reproductive health in the public sphere. She investigates how these organizations are making use of communications amid various contemporary challenges including the proliferation of misinformation about women's rights and health in the public sphere due to the actions of oppositional far-right nationalist groups. Through original in-depth interviews within the NGOs and empirical research of the institutions' online presences, Matos unpacks the complexities of the relationship between women's health communications and development, contributing to the fields of development health communications and gender studies and advancing the debate on the role of feminist NGOs in advocating for women's rights. With a postcolonial critique of the role of NGOs in development, Matos illuminates the strategic use of communications in the mediation and advocacy of gender equality and reproductive health.

[Feminist Approaches to Media Theory and Research](#) Dustin Harp, Jaime Loke, Ingrid Bachmann, 2018-07-12 *Feminist Approaches to Media Theory and Research* tackles the breadth and depth of feminist perspectives in the field of media studies through essays and research that reflect on the present and future of feminist research and theory at the intersections of women, gender, media, activism, and academia. The volume includes original chapters on diverse topics illustrating where theorization and research currently stand with regard to the politics of gender and media, what work is being done in feminist theory, and how feminist scholarship can contribute to our understanding of gender as a mediated experience with implications for our contemporary global society. It opens for discussion how the research theory and interventions challenge concepts of gender in mediated discourses and practices and how these fit into the evolving state of contemporary feminisms. Contributors engage with discussions about contemporary feminisms as they are understood in media theory and research, particularly in a field that has changed rapidly in the last decades with digital communication tools and through cross-disciplinary work. Overall, the book illustrates how the politics of gender operate within the current media landscapes and how feminist theorizing shapes academic inquiry of these landscapes.
