Feminized by Aliens (Gender Change Science Fiction) Tabatha Dallas, 2018-02-02 *Trans Figured* Sophie Grace Chappell, 2024-03-28 I was four and three quarters when I asked my mother if from now on I could please go to school as a girl instead of as a boy In this extraordinary new book renowned philosopher Sophie Grace Chappell combines personal memoir philosophical reflection open letters science fiction writing and poetry to help us all figure out transgender What is it really like to be transgender How can we as a society do better to accept the reality of trans lives and to welcome and include trans adults trans children and trans families How can trans people thrive in a cisgendered world For too long now clouds of myth misinformation alarmism and wrong headed ideology have masked the reality of trans people s lives By answering questions like these this book blows away the clouds and gives us the truth instead Rich informative and deeply moving *Trans Figured* will be widely read and celebrated for years to come

Human Resource Planning D K Bhattacharyya, 2009 Human Resource Planning has globally become a much discussed issue Throughout the world manpower redundancy has become so common that it is no more catching the attention of media India is also no exception to this Many management institutions and universities have now included HRP as a core paper for their MBA curriculum We really do not have adequate literature in HRP more specifically to Indian situations Apart from this corporate practitioners also like to get some insight to the nitty gritty of HRP Keeping all these factors in view the present book has been developed by the author considering the different aspects of HRP The book aims to fulfill the need for MBA course on HRP and also for the practitioners as a reference manual to help successful HRP practice in organizations

Populating the Future Britt Johanne Farstad, 2023-07-19 Speculative fiction opens doors for imagining beyond what is possible conventional or acceptable Speculative fiction has an acute ear for the social the scientific and for political developments and change all of which are prominent topics Reproduction and parenthood are pertinent social questions that are constantly renegotiated in various arenas By investigating representations of family making and reproduction in speculative fiction the research presented in *Populating the Future* Families and Reproduction in Speculative Fiction not only adds to the field of speculative fiction scholarship but also contributes to the more general discussion about reproduction and parenting Speculative fiction operates as thought laboratories that make connections between discourses visible It highlights power structures that can be difficult to detach and represents difficult and abstract issues more concretely As such speculative fiction demonstrates the complex entanglement of reproduction with issues of gender power and agency By facilitating thought experiments and illustrating alternatives speculative fiction also enables the representation of new family structures and reproductive technologies thus paving the way for discussions about various practices and their possible consequences Due to its multidisciplinary approach this book will be of value to scholars and students of various disciplines such as literature studies philosophy ethics political science the social sciences and gender studies It will also be a useful resource in teacher training

programmes as well as to a more general audience interested in speculative literature politics society gender and ethics

Race in American Science Fiction Isiah Lavender (III.),2011-02-08 Noting that science fiction is characterized by an investment in the proliferation of racial difference Isiah Lavender III argues that racial alterity is fundamental to the genre's narrative strategy Race in American Science Fiction offers a systematic classification of ways that race appears and how it is silenced in science fiction while developing a critical vocabulary designed to focus attention on often overlooked racial implications These focused readings of science fiction contextualize race within the genre's better known master narratives and agendas Authors discussed include Isaac Asimov Ray Bradbury Philip K Dick and Ursula K Le Guin among many others

Education and Social Change John L. Rury,2015-07-24 This brief interpretive history of American schooling focuses on the evolving relationship between education and social change Like its predecessors this new edition adopts a thematic approach investigating the impact of social forces such as industrialization urbanization immigration globalization and cultural conflict on the development of schools and other educational institutions It also examines the various ways that schools have contributed to social change particularly in enhancing the status and accomplishments of certain social groups and not others Detailed accounts of the experiences of women and minority groups in American history consider how their lives have been affected by education while Focal Point sections within each chapter allow the reader to hone in on key moments in history and their relevance within the broader scope of American schooling from the colonial era to the present This new edition has been comprehensively updated and edited for greater readability and clarity It offers a revised final chapter updated to include recent change in education politics and policy in particular the decline of No Child Left Behind and the impact of the Common Core and movements against it Further additions include enhanced coverage of colonial and early post colonial American schooling added materials on persistent issues such as race in education an updated discussion of the GED program and a closer look at the role of technology in schools With its nuanced treatment of both historical and contemporary factors influencing the modern school system this book remains an excellent resource for investigating and critiquing the social economic and cultural development of American education Captivity, Forced Labour and Forced Migration in Europe during the First World War Matthew Stibbe,2013-09-13

The notion of the First World War as the great seminal catastrophe Urkatastrophe of the twentieth century is now firmly established in historiography Yet astonishingly little has been written about the fate of non combatants in occupied and non occupied territory including civilian internees deportees expellees and disarmed military prisoners This volume brings together experts from across Europe to consider the phenomena of captivity forced labour and forced migration during and immediately after the years 1914 to 1918 Each contribution offers a European wide perspective thus moving beyond interpretations based on narrow national frameworks or on one of the fighting fronts alone Particular emphasis is placed on the way in which the experience of internees forced labourers and expellees was mediated by specific situational factors and by the development of war cultures and mentalities

at different stages in the respective war efforts Other themes considered include the recruitment and deployment of colonial troops in Europe and efforts to investigate monitor and prosecute alleged war crimes in relation to the mistreatment of civilians and POWs The final contribution will then consider the problems associated with repatriation and the reintegration of returning prisoners after the war This book was published as a special issue of *Immigrants and Minorities*

Forced Migration: Exiles and Refugees in the UK and the British Empire, 1815-1949, 2025-03-24 This volume explores the forced migration of people defined briefly as when individuals or groups are compelled to leave their home countries due to various though predominantly political factors to the UK and the British Empire from 1815 to 1949 With a uniquely international and inclusive scope this volume is a welcome contribution to our understanding of forced migrations over this 135 year period It aims to kickstart future work on this subject and provide the basis for a more truly global understanding of refugees forced migrations and border controls in modern history Contributors are Yianni Cartledge Vesna Curlic Milosz K Cybowski Rosaria Franco Jade Hastings Jemima Jarman Jeffrey Jones Thomas C Jones Chana Revell Kotzin Micha Adam Palacz Leslie Rogne Schumacher Evan Smith Andrekos Varnava and Andrew Williams

Manufacturing Babies and Public Consent Jose Van Dijck, 1995 On Christmas day 1993 a 59 year old British woman gave birth to healthy twins In Italy the very same week a black woman bore a white baby produced from the semen of her white husband and an egg donated by a white woman Heated debates ensued across the United States and Europe Fifteen years ago the very idea of conception outside a woman's womb triggered science fiction fantasies and alarmist speculations Today thousands of babies are manufactured with the help of in vitro fertilization and related technologies each year The application of these procedures has continuously shifted the boundaries of conception and reproduction In the public debate on new reproductive technologies many voices have been heard medical scientists hailing the new technologies as an unprecedented advance feminists raising apprehensions about the way in which these technologies might rob a woman of her reproductive autonomy and bodily integrity and ethicists religious groups and politicians expressing concerns about the social and moral implications of the new technologies Mapping out the public debate in the three discourses which play the most significant role in the distribution of public meanings science journalism and fiction Jos Van Dyck here traces the ways in which this public consent has been manufactured This book examines important questions about the relationship between science technology and popular culture

Abolitionist Intimacies Eithne Luibhéid, 2025-04-18 In *Abolitionist Intimacies* Eithne Luibhéid examines writings by and about queer and trans identified migrants and allies who contest pervasive US immigration practices and work toward a future without detention deportation and border controls Luibhéid shows how these migrants and activists confront such controls by mobilizing intimacies forging close connections in order to survive in the present From forms of kinship beyond the heterosexual nuclear family to networks of solidarity intimacies allow queer and trans migrants and allies to challenge the infrastructures that support the deportation state proposed pathways to citizenship for undocumented

migrants marriage as a means for legalization traffic interactions as a pipeline to deportation and queer and trans migrant detention In the process activists and theorists have advanced new visions and configurations of possible intimacies that not only challenge deportation but also rework what immigration control and citizenship could mean By focusing on these abolitionist efforts as well as the publicly available records on queer and trans deportees Luibh id highlights the new understandings that emerge when the experiences of queer and trans people are centered

Cinema, Emergence, and the Films of Satyajit Ray Keya Ganguly,2010-06-08 Although revered as one of the world s great filmmakers the Indian director Satyajit Ray is described either in narrowly nationalistic terms or as an artist whose critique of modernity is largely derived from European ideas Rarely is he seen as an influential modernist in his own right whose contributions to world cinema remain unsurpassed In this benchmark study Keya Ganguly situates Ray s work within the internationalist spirit of the twentieth century arguing that his film experiments revive the category of political or committed art She suggests that in their depictions of Indian life Ray s films intimate the sense of a radical future and document the capacity of the image to conceptualize a different world glimpsed in the remnants of a disappearing past

Governing Migration Beyond the State Andrew Geddes,2021-01-19 International migration has become a salient concern in global politics but there is also significant variation in governance responses By focusing on four key world regions Europe North America South America and Southeast Asia this book explores the underlying factors that shape governance responses Rather than focusing on the more visible outputs or outcomes of governance processes such as laws and policies this book opens the black box of migration governance to reveal how understandings and representations of the causes and effects of migration held by key governance actors in these four regions have powerful effects not only on governance outcomes but more broadly on the prospects for global migration governance By doing so the book shows how migration governance systems through their operation and effects can shape migration in its various forms and the lived experiences of migrants

Bender's Immigration Bulletin ,1997

Women and the Political Process Dr. Renu Mishra,2022-01-22 Political parties are among the most important institutions affecting women s political participation In most countries parties determine which candidates are nominated and elected and which issues achieve national prominence The role of women in political parties is therefore a key determinant of their prospects for political empowerment particularly at the national level Because political parties are so influential in shaping women s political prospects Governments and international organizations seeking to advance the participation of women in elections justifiably tend to focus on the role of political parties Political participation extends beyond parties however Women can also become involved in certain aspects of the electoral process through independent action particularly at the local level and by joining civil society organizations Some women in post conflict countries have gained political experience by participating in non elected transitional assemblies Women s networks trade unions non governmental organizations and the media can all provide avenues for women s political participation In many

countries the rights of women are enshrined in law and there are no formal legal barriers to women's political participation in election processes. In practice however there are often formidable obstacles to women's active participation in politics. The hurdles to be overcome can be particularly daunting for women considering running for office and maybe overwhelming for women in post conflict countries. Politics has traditionally been a male domain that many women have found unwelcoming or even hostile. Societies in which traditional or patriarchal values remain strong may frown on women entering politics. In addition to dealing with unfavorable cultural predilections women are often more likely than men to face practical barriers to entering politics including a paucity of financial resources, lower levels of education, less access to information, greater family responsibilities and deprivation of rights that has left them with fewer opportunities to acquire political experience. This book gives a critical account of women's participation in politics and the politicization of women's issues. Women's Liberation Movement has concentrated on women's oppression which includes the sexual division of labor, control of sexuality and the relation of reproduction, access to education, jobs and power over our lives.

Science Fiction Literature through History

Gary Westfahl, 2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science fiction topics, authors' works and subgenres written by a distinguished scholar. This encyclopedia deals with written science fiction in all of its forms, not only novels and short stories but also mediums often ignored in other reference books such as plays, poems, comic books and graphic novels. Some science fiction films, television programs and video games are also mentioned, particularly when they are relevant to written texts. Its focus is on science fiction in the English language though due attention is given to international authors whose works have been frequently translated into English. Since science fiction became a recognized genre and greatly expanded in the 20th century, works published in the 20th and 21st centuries are most frequently discussed though important earlier works are not neglected. The texts are designed to be helpful to numerous readers ranging from students first encountering science fiction to experienced scholars in the field.

The Global Reach of European Refugee Law

Hélène Lambert, Jane McAdam, Maryellen Fullerton, 2013-09-05 Europe has the most advanced regional protection regime in the world. The predicted impact of this body of norms, including the new Common European Asylum System, has been widely identified as one that will have a ripple effect beyond the EU. However, very few studies have noted the fact that this regime has already influenced the law and practice of states around the world for some time. The purpose of this book is to gather evidence that emulation is happening, if it is to explore the extent and identify the processes through which it is happening and to examine the implications of these findings. A review of seven case studies reveals all but one of these cases provides clear evidence of emulation at some point in time. The EU protection regime, which has been most influenced by the European Court of Human Rights, is naturally evolving transnationally and spreading internationally.

Muslim Laws, Politics and Society in Modern Nation States Ihsan Yilmaz, 2016-12-05 Drawing on theories of legal pluralism, this book tests whether and to what extent
