information is a pointer for Marder her discoveries depend on her own creative thinking as much as her laboratory's findings Nassim describes Marder's important findings on neuromodulation the secrets of neuronal networks and homeostasis Her recognition of the importance of animal to animal variability has influenced research methods everywhere Marder has run her laboratory at Brandeis University since 1978 She was President of the Society for Neuroscience in 2008 and she is the recipient of numerous awards including the 2016 Kavli Award in Neuroscience and the 2013 Gruber Prize in Neuroscience Research that reaches the headlines often depends on technical fireworks and especially on spectacular images Marder's work seldom fits that pattern but this book demonstrates that a brilliant scientist working carefully and thoughtfully can produce groundbreaking results The Medic's Homecoming Lynne Marshall, 2013-06-18 The Girl Next Door All Grown Up
